City Racing 3D is an arcade racing game that draws inspiration and ideas from the mastodon of tarmac mobile racing. This game has an impressive fleet and great 3D graphics. The competition will be held on the racetracks of the world's most famous cities such as Tokyo, London, New York and beyond. In addition, money can be used to refine images and upgrade machine nodes. The game uses a good physical model. Each collision not only leads to damage to the image, but also a reduction in certain characteristics. The graphic elements of the game are not bad, but there are not enough stars from the sky, but very pleased with the juicy music along with very inconvenient handling, but you can quickly get used to it, City Racing 3D is a great racing game that will resonate with fans of the genre.
