

## **GREG GORDON— Four-year seat**

My name is Greg Gordon, and I am running to preserve and enhance Alpine's quality of life, character and heritage. My overarching goal is to represent and serve your best interests.

My priorities are: (1) ensuring that housing growth is properly managed and minimizes impacts to our infrastructure, (2) protecting an adequate water supply for our homes, (3) preserving and improving our parks, and (4) better safeguarding our mountains from wildfires.

As a strategy professional, I lead major business transformations that both vastly reduce costs and enable huge revenue growth. Within leading Silicon Valley companies, I've become widely recognized as a highly analytical thinker and successful problem-solver for the future. I graduated magna cum laude in Finance from BYU, where I also founded its Student-City Relations program.

I will consistently oppose the growing trend of "upzoning" or changing density standards to pack more houses onto less land—resulting in more traffic and strain on all our shared finite resources, and lower home values. I have no development interests or allegiances, and don't accept campaign donations.

AnnMarie and I chose to raise our 4 dear children here. I'm deeply grateful for the legacy and sacrifices of Alpine's pioneers—including my ancestors such as Alpine's first bishop, Isaac Houston, and the first pioneer buried in Alpine back in 1850, Edmond Nelson. Alpine can and should remain an exceptional place to live, grow and raise a family.

I would be honored to serve you!
