

Email to instructors:

Dear Business Department Staff,

We are a revolutionary group of students in Salt Lake Community College's Business Department. As forward thinking students, we have noticed a need for support within the business college. We came up with the idea of having a vast communication plan for all the business students in Salt Lake Community College. We would like to create a channel in which all business students can come together, at any time and from anywhere, and ask their questions and bring their problems. We are presenting them with a way to share their concerns, ideas, suggestions, and get help forming study groups more conveniently.

Support groups are very useful to modern day college students. Support groups enable students to share information, have in-depth conversations, and stay on task. Students will gain a sense of empowerment and control over their college careers by joining a support group. Students will enter your classes more prepared, confident, and motivated.

We are inviting you to review these resources and share them with your students. We are kindly asking you to encourage your students to join and participate in our program, as we believe the results will be outstanding. Here is the link to our facebook page and website.

Thank you for your time and encouragement,
Salt Lake Community College Business Student Support Group

Email to students:

Dear Business Student,

Have you ever encountered a problem, question, or concern in a course that you need help with, and would like to share this with fellow students to get their opinions and suggestions? Have you ever hoped to belong in a group that can give you help to resolve a course related situation? We have good news for you.

We are launching a support group to bring all Salt Lake Community College Business Students together. By joining this group, we can be connected from everywhere and at any time, with other fellow students, in a place that gives us the opportunity to be able to bring our questions and concerns in the open and help support each other in our way of progress. You will be able to connect with fellow students through our Facebook page and discussion forum 24/7. You will be able to find and discuss information on difficult teachers, study tips, writing resources, and business advice. So, how to join? Please take a moment to visit our Facebook page and website, as well as read through our flyer (attached below).
