ICE RINK WALK OFF SURFACE

Connor Sports • 800.283.9522 • info@connorsports.com • connorsports.com/traction

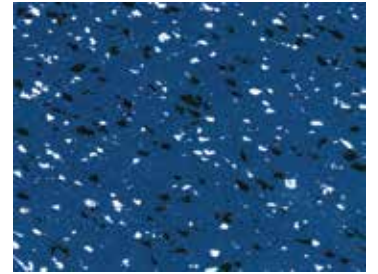

Ideal for ice rink perimeters, locker rooms and other areas subjected to traffic from hockey blades and ice skates.

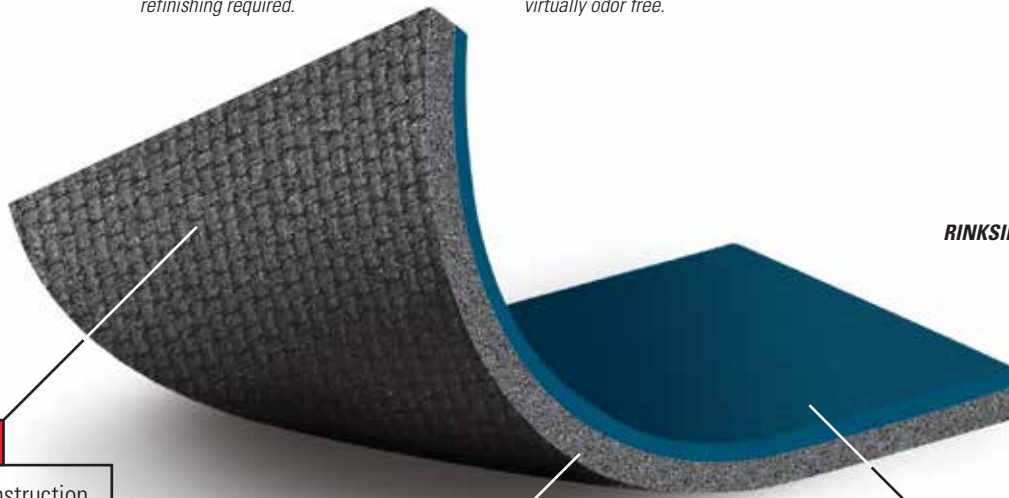

Smooth, non-porous finish provides easy maintenance. No waxing, stripping or refinishing required.

Resists bacterial contamination. Ideal for keeping locker rooms clean, healthy and virtually odor free.

Vulcanized virgin rubber top layer offers brilliant colors that last in a stone and smooth texture.

RINKSIDE / BLUE RSS-21

### BASE LAYER

Dual durometer construction provides outstanding force reduction and safety.

### CORE LAYER

Core layer disperses impact, virtually eliminating "bottoming out."

### TOP LAYER

Higher durometer fleck surface designed for ice skate traffic.

### THICKNESS

RinkSide High Impact Athletic Surfaces are available in 6, 8 and 10mm thicknesses in either 1.4 meter (4') wide rolls, or 1 meter square tiles.
