Connor Sports organizes your strength training room with custom storage equipment. Our systems, engineered in partnership with strength coaches, meet the needs of today's weight rooms, performance centers, nutrition areas and gyms.

We can organize your weight room to fit any accessories that you have while branding storage with your school logo.

"Thank you Connor Sports for these incredible custom made storage items. These things are built like TANKS. Can't believe how sturdy and clean the craftsmanship came out. Will be definitely tapping into this company again."
