Surface Preparation

- Sand Blasting
- Soda Blasting
- Wet Blasting
- Water Jetting
- Shot Blasting
- Power Tooling
- Pickling

Each project that GBI performs strictly follows all NACE standards, Customer requirements and the coating manufacturer's guidelines.

GBI employees take pride in projects, as they work safely to produce a high-quality product for every customer.

GBI provides Surface Preparation in a variety of different ways.

Our employees have over 20 years' combined experience preparing and coating surfaces in all types of environments.

Industrial Coatings

- *Structural Coatings*
- *Tank Linings*
- *Tanks Coatings*
- *Concrete Coatings*
- *Shop Containers*
- *Piping*

GBI provides a wide range of interior tank linings for full or partial interior applications.

We can provide exterior coatings to meet whatever needs our customers have.

GBI also has the ability to shop prime, apply fireproofing and coat concrete.

Scaffolding

- *Full Interior / Exterior Scaffolding*
- *Rolling Scaffolding*

GBI Safety & Quality are Epic
