

KEARNS IMPROVEMENT DISTRICT

'FIX A LEAK WEEK" PROGRAM

MARCH 18-22, 2019

We have invited elementary schools within Kearns Improvement District to participate in our "Fix a Leak Week" program. This program would provide our team approximately twenty minutes per group to educate 4th grade students about water conservation. We have been able to schedule with Silver Hills, David Gourley and Mountain Shadows and would love to be able to present at any other elementary schools within our District.

Any schools and / or teachers interested can contact Abby Williams, Conservation Coordinator, at 801-968-1011.
