

# Construction Notice

Construction of upgrades and improvements to the Kearns Improvement District's Zone D U111 Water Main Extension located on State Road U111 Between 6000 South and 5400 South, is financed by the Drinking Water State Revolving Fund. The DWSRT program is administered by Utah Department of Environmental Quality, Division of Drinking Water with joint funding from the U.S. Environmental Protection Agency and Utah. This project will construct a twenty-inch (20") diameter water main extension that will provide water service to the developing area within the KID Zone D pressure zone. It will serve citizens within Kearns, Salt Lake County, and West Valley City. DWSRF programs operate around the country to provide states and communities the resources necessary to maintain and improve the infrastructure that protects our valuable water resources nationwide.
