

OFFICIAL COURT OF FIBA 3X3

LAUSANNE, SWITZERLAND

A serious surface for a serious game

Building Champions Together.

As long as FIBA has been involved in 3x3 basketball, Sport Court has been there. With a partnership starting in 2008 at the Asian Beach Games in Bali to the break through Youth Olympic Games in Singapore to the FIBA 3x3 World Championships and World Tour, FIBA and Sport Court have worked in unison to take basketball to unique settings around the globe. Together, Sport Court and FIBA have created sporting events that embody the culture of young, energetic basketball players who strive to make 3x3 an international phenomenon. Now, Sport Court, FIBA and 3x3 players have their eye on the ultimate goal – competing in the 2020 Olympics in Tokyo.

“Sport Court has been our first major partner for 3x3 basketball since back in April 2012. It is great to work with such an experienced and innovative company such as Sport Court, who provides us with a new surface designed to boost the performances of our best 3x3 basketball players in a safe environment in the most iconic urban landscapes in the world.”

– Patrick Baumann, FIBA Secretary General and IOC member

THE QUALITIES OF A CHAMPION

ATHENS, GREECE

The International Standard

Sport Court is the international standard for outdoor playing surfaces, providing quality basketball courts for athletes of all ages and skill sets. Sport Court's surfaces have been tested and approved by the world's most demanding athletes and organizations - like FIBA - for elite competition, training and recreational sport. Over 150,000 of our high-performance surfaces have been installed around the world.

Your athletes deserve the same level of safety.

13.45 meters

“As 3x3 is being taken more seriously, the requirements and expectations for the court are also being elevated. A slab of concrete is not a sports surface. Players cannot be expected to give 100% and play fearlessly if the surface they are playing on is going to hurt them.”

- Andrew Gettig, Vice President of International Sales, Connor Sport Court

PowerGame™ Safety Comparison

3x3 WORLD TOUR

SAFEST COURT IN THE WORLD™

Sport Court's engineers work to design high-performance courts that increase the safety of the athletes playing on them. In fact, through independent Lab Testing, Sport Court products have been shown to reduce the likelihood of a head injury from impact and to reduce the shock on joints. Making it the safest surface for athletes.

Official Court of FIBA 3x3

FIBA selected Sport Court® as their court supplier because Sport Court delivers a high-performance product that makes an event director's job easier.

PORTABILITY: 1 court comes in two 3m crates

EASY INSTALLATION: 2 guys, 1 hour, 1 court

PLAY ANYWHERE: Sport Court 3x3 basketball courts can be put down over almost any hard, flat surface allowing 3x3 tournaments to be played in a variety of unique, iconic venues

CUSTOMIZABLE: Personalized colors and logos

SAFETY: Protects athletes from joint fatigue and overuse injuries
