

STEVE COSPER

I'm Steve Cosper. I'm running for City Council after serving for ten years on the Planning Commission, with the past two and a half years as Chairman of the Commission. My wife Alice and I have lived in Alpine for thirty one years. We have raised our six children here and now have thirteen grandchildren.

We love Alpine, it is our home, and we plan to remain residents of this great city for the foreseeable future. I received a Master of Science degree in structural engineering at BYU in 1979. I have owned and operated a structural and forensics engineering firm for the past twenty seven years.

I am the evening director at the Volunteer Care Clinic every Thursday evening. The clinic provides medical services for low income patients who do not have health insurance.

My hobbies include golf and building backyard sheds, both of which recently occur with about the same frequency. I love spending time with my grandkids. I raise backyard chickens for amusement and of course fresh eggs.

My heritage includes my third great grandfather, Edmond Nelson, who moved to Alpine in 1850, died the same year, and was the first person buried in the Alpine Cemetery.
