The online gaming portal Kongregate.com offers no less than 1,000 free adventure and RPG games that focus heavily on mystery and problem solving. This wide variety of options ensures that there is something for everyone. Beginners or new players can find Hero Weapons and Feudalism to their liking. Hardcore detectives will look for the challenge posed by Gateway and The Visitor. Kongregate also offers many games from other genres with mystery backgrounds in many categories. This is a great general online gambling website that has no shortage of games for puzzle solvers and detectives. Keep up with the latest daily buzz with the BuzzFeed Daily newsletter! So you want to play a game and kill a few minutes or hours. But you don't want to spend money, or install Steam (which can be a bit of a resource pig). You have two options: Either play something in your browser, or grab one of the many fun and free indie games on offer on the Internet. If the latter sounds more attractive, Game Downloader is a free and lightweight application that can help you find and legally download fun, free games. Game Downloader lists a lot of information about each game and includes a direct link to YouTube to watch game-related videos. You can get game downloader as an installer or a portable application that requires no installation. Both the installer and the mobile application appear in a UAC prompt requesting administrator permissions before running. When you run Game Downloader, a solid window opens with a black background. In addition to the odd choice of color, other controls are typical -- just like any other Windows utility. There's a search box, but it only works if you know the exact name of the game you're looking for: For example, searching for compensation doesn't work, even though Hedgewars is one of the games listed. There's a category Allowing you to narrow the selection to the type of game you're after, such as turn-based games, racing games, puzzles and even music-based games like Frets on Fire. Once you've selected a category, you can browse the list of games. Game Downloader lists the version and file size of each game and includes a tiny screenshot and a text description of the game. There are also icons that show whether the game supports single player mode, multiplayer mode or online game and whether it requires a user account. From the game Downloader Downloader dry technical information for each game, it is not easy to choose something good. That's where the YouTube button is useful: Click on it and the default browser will load YouTube with a search query for the name of the game. Most of the time, you will find videos, tutorials and demos in the game that show what you can expect if you download it. Finally, there is the Download Game button, which grabs the game file or installer. Unlike Steam, Game Downloader does not try to be a library. You will download the game for you, but you can step through the installer yourself (if the game has one). The Downloader Game doesn't come with many bells and whistles, but it's an effective list of free Windows games. I just wish you had user reviews like those in the iOS App Store or Google Play.--Erez Zukerman Note: When you buy something after you click on links in our articles, we may earn a small commission. Read our affiliate link policy for more details. Now download dozens of free games for Windows with game downloader. The games are reasonably categorized Compact and portable Rich Selection of Installer games requires manual lifting No user reviews These free murder mystery games will make sure you have everything you need to throw a murder mystery dinner or party without having to spend the usual \$20-\$75 to buy the party kit that you will probably use only once.
