General ReviewI think this game is the most fun upgrade game and hardly Ant adds ive never play No.1 but it seems fun so im going too far in that as soon as I can get. And you can also think so far that you open im new cars in Imabo and the rest of the cars when they update the awesome look so I think running over good zombies will add too much play as obsticals and cool it's how you can upgrade your wheels through the box bash which is what I think I have to try it yourself. The best offline game I've ever played is super cool except I just wanted to say... Pls make this mode a little different lace It gets frustrating to drive the same path with the same street uff and all as well as I like if there is another way to earn money from just driving apart from that cool game! ☺ ☹ ☹
