The main task – to explore numerous three-dimensional locations, collect food and useful resources, build burrows with many arcades and storage rooms, drive their glaring competitors out of the territory and hide from hungry predators, and, of course, constantly improve their accumulated ranking to get a good ranking on the global rankings. In short, the objectives and missions of the game Mouse Simulatorobound, and to carry out the whole package goes from a few hours long game time. Our happy protagonist - he relied on your support and comprehensive. But to have problems after starting the game has just begun – choose the infirmary, the configuration of the appearance and main characteristics, a number of air conditioning, do not allow, in the short term to achieve the desired result, the constant struggle with hunger and seed ... But all the details are still in the process of learning – ignore not recommended. So that understanding at least one aspect, can say goodbye to dreams of peace and tranquility of rat life. As we have already said, a lot of game time due to varied fundraising - all well the protagonist pulls into his lair and subsequently can communicate with him. For example, an old piece of batona will help to survive a year of famine, but paper and hay are useful for heating the apartment. Fighting enemies (naturally successfully executed) allows you to draw rodent features and unlock a number of other talents and opportunities. Then, after some time, you will be able to take to the hole husband, and there, and even the children's hand. In fact, this and other problems adds (excess mouth), but brings a basic variety of the game. It's worth thanking the guys from Avelog for the thoughtful gameplay and weight that's available to implement the features. And do not forget about the quality of graphic design – many details trace the location, racing built game world, full of realistic sounds, funny model of gray heroes, unique dress clothes and accessories...
