Copyright © 2020 InfoSpace Holdings, LLC, System1 Company Remember the days when you look forward to the release of the next Harry Potter book? I always pre-ordered them online, and I practically sat at the end of the driveway in my inbox until the truck arrived with my book. And unlike some series in which sequels could never match the magic of the first book, every harry potter in a row managed to off. I would grab a cardboard box, tear it open, and hole in my room until I finished the whole story. What I most enjoyed reading the series as it came out is that I almost always had the same age as the characters. As I got older, Harry Potter books did too, so I felt that everyone was perfect for my current phase of life. However, as much as I love every book, I have my favorites. It can be moved over the years, but there has always been that one that with me the most. And isn't that the case for most fans? You may be head over in a series of heels (and when people ask you you want to bring on a desert island, it feels wrong to choose just one), but always always always a premium that has a special place in your heart. So what does that special say about you? Harry Potter and the Wizard's Stone You keep things classic, and you like it when books draw you into a different world. One of your favorite dreams is the fall of a rabbit hole or the acquisition of superpowers or, of course, receiving a letter from Hogwarts. People enjoy your whimsical and youthful spirit, and you are quite optimistic, whether you understand it or not. And your copy of the Sorcerer's Stone is beaten without faith, for you have read it many times. Harry Potter and the Chamber of Secrets People called you secret, so you can be associated with the title of this book. But really, you just enjoy a little mystery and intrigue in your life. You still have a sense of humor, though, and often relate to characters who are a little offbeat. While some people say that the original is always the best, you like the perfect sequel. Harry Potter and the Prisoner of Azkaban Ou do not judge a man according to the rumors you hear, because you know that sometimes learning a little behind the scenes will completely change your mind. While you've had your share of tough days and may be concerned with feeling that dementors inspire, you're also incredibly hopeful (and you know that chocolate can help a lot). You also own a time turner necklace and you really want to visit Hogsmeade. Harry Potter and Fire Let's Goblet to be real: You like a little drama. From exciting tournaments to sporting events to fancy balls, you're all on adventure all the time. You would surely have entered your name in the Fire Goblet, and you have a strong opinion about the different relationships in the book. Most often you are an adrenaline seeker who likes to solve complex problems, whether it be heart problems, riddles or physical challenges. Harry Potter and phoenix You te right through the angsty stage. In fact, you've always been a bit rebellious, and you really said the words Nobody Understands Me (or at least thought of them). When it comes to it, though, you are fiercely loyal to those you love, and you are always the first to stand up for the underdog. You are also a little fascinated by the secrets and things in life that you do not understand - you like to spend time reflecting on deeper life issues. Harry Potter and the Half-Blood Prince You. Love. Love. One of your favorite parts of the Harry Potter series is the personal relationship between the characters, and you are very dedicated to your favorite ships. In your life you always have the backs of your friends, although sometimes you can be distracted by new romantic prospects. Still, in the end, you are a true friend, and you always stand for what is right. You love justice and learning, and have a very DIY approach when it comes to getting things done. Harry Potter and deathly Hallows When all the loose ends are Up, you're happy. Some may call you a perfectionist, but really, you just want everything to be right for the people you care about. You have a fighting spirit, and you wouldn't hesitate to sign up for the Battle of Hogwarts. You are focused on detail, patient and faithful, and when you hear the words always or everything was fine, you immediately burst into tears. Most people have at least heard of Harry Potter, especially since the franchise has remained popular for many years. Harry Potter is still thriving and gaining more fans along the way. In fact, it is so popular that the Harry Potter reboot is a really big opportunity in the near future. Regardless of any reboot rumors, the original Harry Potter films continue to captive audiences around the world. How Much Harry Potter movies: a good question for Harry Potter cast in the Deathly Hallows premiere in part one | Dimitrios Kambouris/WireImage All Harry Potter series is beloved among hardcore fans and casual viewers alike. But how many of them are, depends on what you ask. Most people, when pressed, would say that there are eight Harry Potter movies. This includes from Harry Potter and the Wizard's Stone to Harry Potter and the Death Hallows. More specifically, this list would include: Harry Potter and the Sorcerer Stone Harry Potter and The Secrets Harry Potter Palace and Azkaban's Harry Potter Prisoner and The Fire Goblet, Harry Potter and phoenix Harry Potter and Half-Blood Prince, Harry Potter and the Deathly Hallows first part and Harry Potter and Deathly Hallows' second character. But these eight films are not the end of the Harry Potter universe. There's more. What about Fantastic Beasts? The most difficult Harry Potter fans have seen Fantastic Beasts and Where to Find Them and Fantastic Beasts: Grindelwald's Crimes and Eagerly Awaiting The Third Movie of fantastic beasts series. However, some fans do not believe that the Fantastic Beasts movies are part of the main Harry Potter story. This is mainly because fantastic beast movies follow different characters than the Harry Potter series. While the Harry Potter movies focus on what's going on at Hogwarts with Harry and his friends, Fantastic Beasts movies focus on characters like Newt Scamander and younger versions of Albus Dumbledore and Gellert Grindelwald. So it's understandable that Fantastic Beasts is seen more as a prequel to Harry Potter than a sequel. How successful are the Harry Potter movies? The Harry Potter films are a global hit. The first film Harry Potter and the Sorcerer's Stone - alone made \$975 million dollars. It's not bad for a young wizard. The last film in the series, Harry Potter and the Deathly Hallows, part two made \$1.3 billion. All this money adds up and it makes JK Rowling a very rich woman. In fact, JK Rowling is considered the world's richest author. And she didn't get her first book published until she was 32. This proves that it is never too late to start your dream and that you may succeed for your wild dreams. Dreams.
