## Nevada Managing Engineer

---

ETC Group is an international energy efficiency consulting firm. Established in 1988, we currently have offices in, Salt Lake City, Utah (Headquarters), Tempe, Arizona, Las Vegas Nevada, Macau, China, and Singapore.

Our mission is to deliver energy efficiency to our clients. We specifically focus on providing energy analysis, commissioning, monitoring based commissioning, turn-key projects, and fault detection software. Our clients include some of the largest healthcare providers, casino operators, and medical manufacturing companies in the world. And we're growing!

We're currently looking for an experienced engineer to lead our Nevada office.

### Responsibilities

---

- Lead engineer and customer point of contact on Nevada based projects including:
  - Identifying energy efficiency opportunities in facilities
  - Developing analysis plans to evaluate efficiency projects
  - Performing audits/analysis and completing calculations and reports
- Lead client facing project or construction meetings
- Coordinate field activities for SLC/AZ based engineering teams that will be visiting sites.
- Manage Nevada projects that require significant support from other offices
- Remove barriers by coordinating with site personnel, contractors, other consultants for ongoing work
- Supporting our business development and overall ETC presence in Las Vegas by strengthening our relationships with clients, professional organizations, utility companies, vendors, contractors, and design engineers.
- Meeting with potential clients to evaluate opportunities and identify projects

### Required Qualifications

---

- Bachelors degree in Mechanical, Chemical, or Electrical Engineering
- 10 years of experience in the engineering industry or equivalent education/experience
- Competency with Microsoft O365 platform
- Strong listening, communication and writing skills
- Effective working in a collaborative team environment
- Ability to manage multiple projects

### Desired Qualifications

---

- Bachelor's degree in Mechanical Engineering
- 10+ years of experience in the energy efficiency industry
- HVAC experience with strong fundamental knowledge of:
  - Psychometrics
  - Motor driven pumps and fans
  - Building automation systems
  - Chiller plant operations
- Competency with Deltek Vision
- Experience with SkySpark

### Location

---

This position is based out of our Las Vegas, Nevada office.

### To Apply

---
