Subscribe to Saku's Blessing in the Crossing Void for a deluxe gaming experience! Check out what's included:1. Maximum energy limit: +60 pts2. Multi-energy mode: 4x option 3. Energy is claimed in daily energy missions: +10 pts4. Maximum daily billing friend point limit: +400 ptsPrice: \$1.99 Per month (30 days) Note: Prices may vary by location. You'll be charged to your iTunes account when you confirm your purchase. Your subscription will automatically renew unless auto-renew is turned off 24 hours before the end of the current period. Your account will be charged for renewal within 24 hours of the end of the current period and will identify the renewal cost. Users can manage and cancel subscriptions, and auto-renew can be turned off by going to the user's account settings after purchase. Unused portions of the free trial period will be forfeited if you purchase a subscription to that publication, if provided. Terms of Service:Privacy Policy: Agreement: June 11, 2020 version 1.0.14 New characters and limited characters. New event [Alice's Food Dairy]. A new story chapter 14 [key figures] is coming. Decrepit dream new mode [change] is coming. Fixed several localization bugs. I downloaded this today and started playing it. Ideas for collecting different characters The series is one of those things that animation fans will probably consider the biggest feature. My first impression was a little short after looking at the App Store page, but I decided to give it a try anyway. While currently writing this review, chapter 1 is still so far the game and the story are really good. The Gacha system is a little difficult to understand due to the different currencies required for a particular ticket. But most of the time it's not as bad as it looks. My only complaint about the game is the loading time and the game being a little buggy. I'm currently using iPhone XR and I'm getting a lot of freezes and hiccups on various menus and loading screens. I've restarted the app many times so far and I'm not very satisfied. Also I was separated from the disconnect at one point. I'm not sure for sure what it is, but for me this is a big deal. The game itself is great. The negative thing is that loading and freezing will take away from my entire enjoyment of the game. If developers can find a solution for this load time and freeze this game, it will be one of the best animated crossover/gacha games. To get to the point: This game is good. It is one of the better gacha style games to date. It's mainly f2p, but the p2w option (very poor exchange rate) makes it more f2p friendly. The battle is good (although you tend to drag once you get your rhythm). And the difficulty level extends well without leaving you behind to spend grinding. Developers stay in touch and actively engage with the community. All told, there are 2 main problems I have. The first is a bug. This game often tends to get stuck loading very small things. It's usually only a 10-second loading time, but it adds up when you don't need it. There are a couple of other small bugs roaming around, but they are much much more tame and rare. The second is how the story is handled. It's not new to have cutscenes for stories, but Crossing doesn't try to throw in some battles on it as well. But this battle doesn't award anything, it doesn't really add to the story, and you can do nothing at every turn. I think that's a big deal because it can give other teams a team to try or something they simply choose to waste player and player time on. In summary, I would strongly suggest that anyone who wants to read this game try it. Just be aware of what you are currently getting into. I love the animations and battles you're in anime and love how to mix them in some of my favorite animations like Doura, Sword Art Online, accel World, and black bullet characters and unique skills are very fun and there are no bad loading times and delays after you've finished downloading good games and fun ignore the hate This is a useful auto mode and the first game where you can go for something useful and all the characters are automatically using all the right techniques and of course it's a new game so they're definitely good. Loading a bit slow but I'd even spend money on it because it's worth updating if they keep updating is one of the best games on the AppStore and one of my all-time favorites server issues and games came out worldwide yesterday and naturally load time, but every once in a while it happens most of the time that you won't load will be patched in updates if you love animation👍 developers, 91Act.com, privacy practices and Apple haven't provided details about data processing. Help Center 🌟Syon-registration rewards, add! Dear Void Agent: After meeting you guys, we've received a lot of support from you, and we're ♥ thanks for paying you, everyone in the void agency is busy creating a better void for you! When OBT begins on November 5, we hope the gaming experience will be better than the way we experience it now. At the same time, we want to thank you for your love of void-global crossings, so we have decided to add more pre-registration rewards to show you our thanks, from the Void Agency - 🎁Charcha voucher x 2 + coins x 7777🎁📌 Tips 1. Those who pre-register will automatically get additional rewards, you don't have to pre-register again! 2 pre-registration rewards will be delivered via in-game mail within 3 days of obt being launched, and don't forget to claim them - 3 The game will be available on the App Store and Google Play on November 5! As for those who have not registered 🎁rich rewards for cross-registration for cross-registration now global! iOS: Android: 🌟Boid Crossing - Global will be available for purchase on the App Store and Google Play on November 5! #CrossingVoid #91Act Source: Monday, November 4, Tengeki Minko: Crossing Void has been released. Beta testing for iOS and Android. For the inexperienced, DengekiBunco is an IP group published by ASCII MediaWorks, which also includes video game series such as Sod Art Online!!, Doolara, Devil Is a Part-Timer!, Virtua Fighter and the Valkyria Chronicle. The collected works appeared five years ago in a fighting game called Tengeki Minko: Fighting Climax. Source: In-Game Screenshot Crossing Boyd ditches the 1-to-1 game mechanism for a turn-based combat system very similar to Destiny: Grand/Order. There are various game modes including Story and PVP. Players who pre-register for the game will receive several rewards, including gacha vouchers. Click here to pre-register. Check out the Void Global Crossing Guide at the link below!
