Dragon Ball FighterZ is an official Dragon Ball game that has been released for pc as well as video consoles from the likes of PlayStation 4, Xbox One, and Nintendo Switch. However, an old-school fan of this anime decided to make his own adaptation for Android and thanks to the latter we can make the most of Dragon Ball: Tap Battle. Dragon Ball FighterZ for Android It is a 2D wrestling game based on the system that made titles of the likes of Street Fighter or Mortal Kombat so popular: fighting head to head with an energy line that shows the life of the character. In this game, we can control almost all the characters of famous anime like Goku, Vegeta, Freezer or Gohan and do it with some really accurate controls that we are not used to seeing on mobile touch screens and in this case, you only need to press the screen. It will allow us to move our character around the screen and launch devastating attacks and everything will depend on how and where we place our finger: we will be able to release Kame-Hames, reload our power bar, fly... Without a doubt, a two-dimensional wrestling game with excellent graphics that, despite being translated into Portuguese (and in short in Japanese), will give us no problem to handle it. This.
