While I could go to the barber for my favorite short cut style, I like to let my hair grow a little and evolve. So I need someone to really pay attention to the details and cut it well so that it can also grow in a nice way, unlike most cheap barbers who cut your hair in a way that looks good for about a month before it starts growing unevenly or showing other defects. My wife and I both see the same stylist, Tina, who is amazing in what she does. She is friendly and always in an optimistic mood. Well Tina and company got overwhelmed for my wedding party. My wife looked gorgeous and everyone's staff tended to (her sisters, mothers, sister, flower girls, etc.). Even though my wife moved in with me, which is further from the show, we will continue to trek to see Tina because the value of a good show is just too much to let pass. They do everything, and my wife never left the store unhappy. Posted on 06/08/2013 08/06/2013
