My company hospital game mod apk

My Hospital is a colorful mobile arcade game, in which the user is invited to become the head of a modern medical center. The game mode is to manage the hospital's work. Initially, the medical establishment will not be distinguished by extensive treatment options. But with the arrival of the first patients in the game account will leak currency, which you can buy modern equipment. Building new wards, laboratories for the development and study of medicines, diagnostic centers for medical diseases is sure to attract a large number of people who need quality treatment. Also with virtual money you can create new drugs, as well as improve the quality of service to hire doctors and qualified staff. Graphics are colorful and detailed drawings. There is also synchronization with social networks, thanks to which you can call your friends to the game, as well as interact with other users. My Hospital - a great arcade game that you can drag for a long time thanks to a good idea and its high quality implementation. Installing Games and Game Installation Programs With Cache How to Take a Screenshot of Spil Games Android 5.1 q Version: 1.39.1 \$0 Operate Now: Hospital (MOD, Unlimited Money) - a medical simulator in which the surgery department will be directed, but the main emphasis on the game is made precisely in performing the most complex operations , extraction of foreign bodies to the organization. At the same time, the operation process is recreated as realistically as possible. But don't forget your institution's development, the construction of new buildings, the conduct of research and other necessary actions. Excellent graphics completely conveys all the complexity and responsibility of the game process. Updated to 1.39.1!
