Do yours get the most score of all your friends now go on a run of Spider Stick-man Swing and Have Fun We trust you to like our game so give us nice feedback and comment give us your opinion and what you like to add to this gameNaudi swing stickmna game ! 8/10-90 votes Played 36 676 times Stickman Swing is a fun arcade game, easy to learn but increasingly difficult to master the growing challenges. Use your rope, like Spiderman, to swing different round blocks and reach the finish line while avoiding multiple traps. Your progression through levels will be rewarded for getting new skins for your character. Comments e:controls: Stickman Swing is another quality online game where you can control the stickman. Your goal is to catch certain parts of the rope so you can avoid obstacles and get to the finish line. .So, you are trying to get through individual levels. Sometimes you will also find trampolines to help you bounce up and get through some obstacles faster. The game offers you nice graphics and simple gameplay. You can also play on your phone, so be sure to have fun! Preamble: This Agreement, signed on 10 December 2004, MarketJS.com signed in The Agreement between the European Community and the United States of Europe on trade in This Agreement establishes the terms, rights, restrictions and obligations of stickman swing (hereinafter the Software) created and owned by the Licensor, as described here here in Licensor: The Licensor grants the Licensee a non-exclusive license, a non-exclusive license free from the license fee, all in accordance with the terms and conditions and other legal limitations set out in the third-party software used during the operation of the Software. Limited: Licensee may use the Software to: operate only non-transferable and non-transferable on the Licensee's website and server: licensee may not transfer or transfer its rights and obligations under that licensee. Non-customizable: Licensee may customize only one (1) startup screen when making a purchase. No further customization is allowed. In addition to customizing services / feature upgrades/ etc., please contact [email protected], and we offer customized services at an affordable price. Commercial, royalty-free: Licensee may use the Software for any purpose, including paid services, without royalties. Single use: Licensee may use the Software for only one project. One domain: Licensee may use software 1 in the website domain Website deployment only: The game is not published on other channels, such as the App Store/Google Play. Please contact [email protected] for publication in external channels and we offer special licenses at an additional cost. Time limit and termination: the period of validity of this license has expired. The Licensor may terminate this Agreement, including the Licensee's license, if the Licensee: became insolvent or otherwise has entered the liquidation process; or exported the Software to any jurisdiction in which the licensor is unable to exercise its rights under these Agreements; licensee violated the terms of that license and such infringement was not re-complied with immediately after the notification; licensee in breach of any of the terms and conditions of this License; the licensee has otherwise entered into any agreement that has caused the licensor to be unable to find, the licensee cannot exercise his rights under the license. Misuse of the Software: If the Licensee abuses the Software without the prior consent of the licensor, the licensor terminates the license immediately with a written notice. Licensee shall terminate the use of the Software immediately. Payment: The licensee pays the licensor for the e-licensee under the agreement PayPal or any other fee deemed appropriate. Failure to make a payment is true as a material breach of this Agreement. Additions, updates, and fixes: The Licensor may occasionally provide the Licensee with additions, updates, or improvements as described here and at its sole discretion. Licensee hereby warrants that the Software is up to date and installs all relevant updates and fixes and may, at its sole discretion, purchase additions at rates set by the licensor. The licensor shall submit any updates or corrections free of charge; however, none of these Agreements requires the licensor to provide updates or corrections. Fix: In this license, fix is a small change in software designed to remove errors or modify minor features that damage the functionality of the software. The correction is marked as the number of the new subversion. For example, if licensee purchased the Software under version 1.1.1, the upgrade starts under number 1.1.2. Error Reporting: Licensee may provide the licensor with information about any error, defect or malfunction of the Software immediately and without delay from such event; Licensee complies with the licensor's information requirements for errors, defects or malfunctions and provides it with information, screenshots and attempts to reproduce such errors, defects or errors. Feature Request: Licensee may require additional functionality of the Software, provided that (i) licensee waives any requirement or right to such functionality, should the licensor develop the feature; (ii) Licensee is prohibited from developing or disclosing this characteristic a functional requirement or function for any third party which is in direct competition with the licensor or to a third party which, in the light of developments in such a function, may be in direct competition with the licensor; (iii) Licensee warrants that this function does not infringe a third party's patent, trade mark, trade secret or other intellectual property rights; and (iv) The Licensee developed, foresaw or created this function only himself. Liability: To the extent permitted by law, the Software is submitted on the basis of AS-IS. The licensor shall never and without limitation be liable for any damages, costs, costs or other payments incurred by Licesee as a result of any communication between the software's activities, malfunctions, insects and/or any other software and Licesee's terminal equipment, computers, other software or any third party, terminal equipment, computer or service. In addition, the licensor is never liable for the deficiencies in the source code written by the Licensee if it relies on the Software or uses the source code of the Software. Intellectual property: The licensor hereby warrants that the Software does not infringe or infringe third party's requirements regarding intellectual property, patents and/or trademarks and that, to its knowledge, no legal action has been taken against him for infringement or infringement of third-party intellectual property rights. The licensor is the owner of the intellectual property of the software. No warranty: The Software is available without warranty; The Licensor hereby waives the warranty that the Software is error-free, without defects or code that may harm the Licensee's computers or licensee, and that this software shall be operational. Licensee shall be solely liable for any damage, defect or damage caused as a result of the use of the Operating Software on the License Server and the Website. Preliminary verification: The licensee hereby claims that he thoroughly verified the software and considered it satisfactory and sufficient to meet his needs, that it does not interfere with his regular operation and that it complies with the standards and scope of his computer systems and architecture. Licensee considered that the Software communicates with its development, website and server environment and that it does not violate any licensee's end-user license agreement that the Licensee may use to provide its services. Licensee hereby waives the requirements for incompatibility, performance, performance and functionality of the Software and warrants that it has verified the Software. No refunds shall be made: licensee guarantees that he/she has verified the software in accordance with the previous condition and that it meets his or her needs. Therefore, because the Software is an intangible commodity, the Licensee is never entitled to a refund, refund, compensation or refund for any reason, even if the Software contains material errors. Compensation: hereby warrants that the licensor is harmless and shall indemnify the licensor for the action brought against him in connection with the use of the Licensee's Software in a manner that violates, violates or otherwise circumvents this license, the licensor's intellectual property rights or the licensee's title in the Software. The licensor shall immediately inform the licensee of such legal action and seek the licensee's consent before an agreement relating to such a lawsuit or claim. Applicable Law, Jurisdiction: The Licensee hereby agrees not to initiate actions against the licensor in respect of this licence and to indemnify the licensor for all legal, expense or attorney's fees if the licensee does not make a partial or complete claim against the licensor.
