Cod cold war alpha dates

PlayStation 4 owners, get ready to take part in their first secret operations. Two months before the release of the result to the legendary call of responsibility: in the few weeks before the black operation and beta test all PlayStation 4 owners will be able to participate in the alpha testing call of duty: Black Operation Cold War. The special testing session will begin on September 18 at 20:00 Moscow time and will end on September 20 at 20:00 Moscow time. Alpha Test participation is free for all PS4™ for all PS4 users. PlayStation® Plus is not required in most cases. Pre-downloaded file volume, and the amount of files downloaded of the alpha version of regional contact duty call: Black Operation Cold War will be around 25GB. For preloading, they will be available at 18:00 Moscow time on September 17, and the Alpha Test will begin at 20:00 Moscow time on September 18. You can download the free alpha version here in line with your area: Free Alpha Version Download: North and South America Free Alpha Version Download: Europe, Middle East, Australia, and new Ayaland Please note that a PS Plus subscription is required due to the game rating for downloading alpha versions in Germany. Download free alpha version: Japan Download free alpha version: Alpha Testing for Asia and access to special award users call of duty: Modern War® or Free Warzone™ using the main menu will be able to launch the alpha version of the Black Operation Cold War. If you have already downloaded the alpha version, choosing the appropriate menu item in modern warfare or warzone will allow you to play immediately. Otherwise, you can Download page in the PS store. From the Alpha version of Black Operation to the Cold War, you can also go directly to the area. Each alpha test participant will get a special card available in modern warfare and warzone, as well as the Cold War after its release in black operation. Below we will talk about network games and other features that await in your alpha version: Methods-Network Game 6 x6: Team Battle, Attack, Murder Confirmation (September 18-20) Alpha Test will be among the three traditional methods of the game on two cards ready for teams of 6 players. Two classic calls of three included duty command methods: the basic team battle (KB), as well as its murder confirmation (up) variety, in which players need to collect tokens of dead opponents and prevent the other team from doing the same. They are completed by The Aakarjata-based all calls of duty methods with objectives. Note that in the Black Operation Cold War, we have increased the arrest response, which will give you a lot of freedom of fire and defend their approach. During the Alpha Test, these three methods will be available on the following map: Map: Transport ing a prison serviced by the Maami DGI to the famous South Beach area of the Us city of Ma'ami. CIA forces have been deployed to counter them. Actors will take part in fighting palaces, built in art deco and lit by neon lights, storm buildings ininterior and beach clashes. The snapper satpers are waiting for comfortable and quiet positions on the terraces and windows, which allows you to control the roads and beaches. Fans of Maniwarang can attack in the blank Break behind the enemy through the hotel or beach parking lot. Map: Shown for the first time on satellite satellite map, in the Black Operation Cold War presentation, you will find a part of the Angolhan desert around the us spy satellite KH-9's site of the flash site. Apart from this satellite, for which the Us and Soviet forces are fighting, is not a man-made thing. The main struggle is at the center of the map, which is replete with shelters. One of the philenx has many rock loggas, including those you can hide and pantheon. The opposite side with sand-tales is ideal for the snaper, but on it you will be extremely weak for aerial series of glasses and long range large capacity weapons. Introducing, General Weapons War Mode (September 18-20) is a kind of new mode, general arms war will be a type of strategy for teams of 12 players on the big card. The main role here is played by transportation: snowmobile, jet ski, boats and tanks will not only allow you to change position rapidly, but will also significantly increase your team's powerful. As in the classic atrkjata, teams must capture and defend several zones located between the starting positions. In addition to a series of glasses and traditional weapons from kits, the mode sedate, general weapons war plays a variety of important role vehicles. In alpha version, two maps will be available for this mode: Map: Armada 1984. Soviet and American forces are looking for a secret prototype of a new subport in northern Atlantic. Teams will have to fight Move between ships on high seas, cables and seers, as well as on a variety of boats. The main ship is suitable for all kinds of fighting: a dynamic firing as well as sniper duels with neighboring ships and even underwater battles. We recommend careful lying on all the points and corneas of this map: there are several original routes in each zone. And, of course, look close! Map: The expanses covered by the snow-covered Soviet Union, by NATO forces, by dragging a large caravan of aqbum-sanchar. Tanks and snowmobiles will allow players to move rapidly between the footers and have the ability to serve positions for enemy snapers. Think of a strategy plan of fighting, the arrest of the radio station-a lonely building, stands in the center of the perfectly frozen lake. The diaries want to break into enemy rear sancomty that can use a rocket bridge on the abyss pit... Unless, of course, they are afraid of the big height. Want to see new maps and online game practices with your own eyes? Watch the video presentation of call of duty: Black Operation Cold War here! Getting ready to familiarise a series of traditional kits and glasses from the above maps and methods, your classes will be able to try creating functions, modifying weapons and the glass-toning series—they will be available in a limited volume. Pick up your luggage, don't forget to focus on field editing. This new type of equipment, available in fighting over time, can either strengthen your allies or limit enemy capabilities. Another important What are the four jocours that change the rules of class creation. Those who want to enter the war will be able to choose between the kits made containing weapons, modules, privileges, equipment, field amendments and the jocours. For those who want to find the possibility of being more and more life-taxing, these kits will work as good examples for their own weapons to make. Choose your stuff and start fighting, sure to try to call some series of points. Such series is awarded for both killing and actions with points goals to call. Well, now they are safe after death. But it's still offensive to die: more and more enemies can kill you in a life, get the most of the points and the more effective series you cause. Create a digital pre-order alpha version network game black operation will include only a small portion of Cold War content. In open beta tests and the full version, which will be released on November 13, you will find a lot more methods, maps, weapons and vehicles. CallOfDuty.com create a digital pre-order on the website forest artist's kit and other awards for modern warfare and warzone, as well as early access to open beta tests: first on PS4 and then on other platforms. Stay in touch and wait for news to find out more of Aktawasaon's gaming blog in the coming days and weeks. Don't forget to check that to call information about it publish ads and materials: Black Operation Cold War. Follow the new and @CallOfDuty @Treyarch, Instagram and Facebook. Can be created to take part in pre-order Or CallOfDuty.com website. See you online! Work. For PS4™ will need membership in addition to a PS due to the age rating of the game from Germany. The Alpha test will begin on PS4 on September 18, 2020. List of support platforms and are not final at the time of the alpha test launch. Www.callofduty.com/alpha details Of alpha test minimum duration is 2 days. The offer term is limited. You need an Internet connection. To get forest and drawing, you will need a call of duty: modern war or call of duty: warzone for pre-order platforms. This game should be bought or downloaded separately. The presentation should be used by November 13, 2021. For more information, see www.callofduty.com/beta. The minimum duration of an open beta test is 2 days. The offer is limited in terms of the number and time of the initial access code to test online game beta. For participating stores only. You need an Internet connection. You may need to subscribe to online gaming services.
