World history textbook 10th grade florida

Controlled resources that students can use to learn the concepts and skills of this course. In the circular school discussion: identification of a flawed recital - Part two: Practice to identify a flawed recital in this two-part, interactive, English-language arts tutorial. You learn what some experts say year-round schools, what studies have been conducted on their effectiveness, and how arguments can be made and adopted year-round education. Then, you can read the call in favor of year-round schools and identify a flawed justification within the argument, especially to use hasty generalizations. Make sure to complete the first part before the second part! Click [HERE](#) to run the first part. Type: Original Student Tutorial all year School discussion: Identification of a flawed recital - Part one: Learn to identify a flawed recital in this two-part interactive English art tutorial. You learn what some experts say year-round schools, what studies have been conducted on their effectiveness, and how arguments can be made and adopted year-round education. Then, you can read the call in favor of year-round schools and identify a flawed justification within the argument, especially to use hasty generalizations. Make sure to fill both parts of this series! Click here to open the second part. Type: Original Student Tutorial Evaluation Argument - Part Four: JFK's Inaugural Address: Explore President John F. Kennedy's inaugural address in this interactive tutorial. You're investigating Kennedy's argument, the basic requirement, the lesser allegations, the reasons and the evidence. In the fourth part, you can use what you've learned throughout this series to evaluate Kennedy's overall argument. Before 4 April 2004, the Commission shall Click [HERE](#) to run the first part. Click [HERE](#) to run the second part. Click [HERE](#) to run the third part. Type: Original Student Tutorial Evaluation Argument - Part Three: JFK's Inaugural Address: Explore President John F. Kennedy's inaugural address in this interactive tutorial. You're investigating Kennedy's argument, the basic requirement, the lesser allegations, the reasons and the evidence. By the end of this four-part series should be able to assess his overall argument. In Section 3, you will read more of Kennedy's speech and find out a lesser requirement in this part of the speech. You will also assess the relevance of this lesser claim to the basic requirement and assess Kennedy's reasons and evidence. Make sure to complete all four parts of this series! Click [HERE](#) to run the first part. Click [HERE](#) to run the second part. Click [HERE](#) to launch the fourth part. Type: Original Student Tutorial ready for takeoff! -- Part two: Want to learn about Amelia Earhart, one of the most famous female pilots of all time? If so, this interactive tutorial is for you! This tutorial is the second part of a two-part series. In this series, you can Amelia Earhart's speech. You practice identifying the purpose of your speech and practice to identify his rhetorical complaints (ethos, logos, paetos, cairo). You also appreciate the effectiveness of Earhart's rhetorical choices based on the purpose of his speech. Please complete the first part before the start of the second part. Click [HERE](#) to view part one. Type: Original Student Tutorial ready for takeoff! -- Part One: Want to learn about Amelia Earhart, one of the most famous female airmen of all time? If so, this interactive tutorial is for you! This tutorial is part of one two-part series. In this series, you will learn to call Amelia Earhart. You practice identifying the purpose of your speech and practice to identify his rhetorical complaints (ethos, logos, paetos, cairo). You also appreciate the effectiveness of Earhart's rhetorical choices based on the purpose of his speech. Please fill in the second part after this tutorial. Click [HERE](#) to view the second part. Type: Original Student Tutorial removing exotics: identification and evaluation research quality and usefulness: Explore the subject of invasive exotic Florida as you learn to distinguish relevant information from research sources, authority to identify sources of a group of varied resources, and dissect the research issue to identify keywords in search of resources. With this interactive tutorial, you can also learn to use advanced search features to find suitable sources to address the research issue and evaluate usefulness sources when addressing a specific research issue. Type: Original Student Tutorial analyzing President Wilson's war message to Congress: Learn the speaker uses the rhetoric to advance his goal in this interactive tutorial. To achieve the ultimate goal, you will learn how to determine the speaker's goal, identify different uses of rhetoric and explain the impact of rhetoric on the speaker's purpose. This doctrine uses excerpts from President Wilson's War message to Congress since 1917. Type: Original Student Tutorial Cost of Indifference: Determination of the Central Idea: Remember the Holocaust and consider the cost of indifference when you read selected excerpts from texts written by the late Holocaust survivor, Elie Wiesel. In this interactive tutorial, you can look carefully at your words so that we can think critically and deeply about your central ideas. You can also identify important supporting details of a central idea and explain how a central idea is improved with specific details. Type: Original Student Tutorial analyzing related definitions of Historical U.S. documents: Finally, in this tutorial, you should be able to identify the concept of the texts dealt with from two different time periods in U.S. history and distinguish between similarities and differences how the texts address this concept. The texts featured in this tutorial are the Bill of Rights and an excerpt from the Four Freedom speeches by President Franklin D. Roosevelt. Type: Original Student Tutorial Cancer: Mutated Cells Gone Wild! Find out the link between mutations, cell cycle and uncontrolled cell growth, which can cause cancer with this interactive tutorial. Type: Original Student Tutorial Quiz: Imperialism: Test Your Knowledge of American Imperialism and The Age of Empire with this 9-question elective quiz! Type: Evaluation of the Enlightenment: This PowerPoint-style presentation shows how enlightenment ideas influenced the founders' concept of independence and government. Tip: Presentation/Slide Show Speed Trap: The purpose of this task is to enable students to demonstrate their ability to build grids and use grids as a basis for comparing distributions. Type: Problem Solving Task Words and Music II: The purpose of this task is to evaluate (1) the ability to distinguish between observational study and experiment and 2) to understand the role of random assignment test groups in the test group. Type: Problem Solving Task SAT Scores: This problem-solving task challenges students to answer probability questions about SAT grades using distribution and average problem solving. Type: Problem solving task hairstyle costs: This problem could be used as an introductory lesson to introduce a group of comparisons and involve students in an issue they may find fun and interesting. Type: Problem solving task Should we send out a certificate?: The purpose of this task is to order students to complete normal distribution of calculations and use the characteristics of normal distribution to draw conclusions. Type: Problem Solving Task Can You Fit This Car?: This task requires students to use a standard distribution model to distribute data. Students must use these tools and standard deviations to harmonise population percentages. Tip: Fix the problem Task Random Walk III: The task provides context to calculate discrete probabilities and mark them on the bar chart. Type: Problem Solving Task Origins of the Cold War: In this tutorial video from Khan Academy, you can find out the origins of the Cold War. This unusual conflict has sparked the United States (and its Western democratic allies) against the Soviet Union (and its communist satellite states). Although these nations never went straight to war, their rivalry would shape the world for decades! Type: The Doctrine of the Age of Empire: Learn about the factors that drove US imperialism and the acquisition of territories in this short video set by Khan Academy. Useful graphics illustrate the content. Type: Tutorial about getting free: Discover the main events of the 1970s, 80s, 90s and early 2000s in this webside from PBS. Time For decades, America closed out the Vietnam War era, saw the collapse of communism and the end of the Cold War, and experienced the rise of terrorist attacks against Americans abroad and on American soil. In this resource, you can explore primary source documents and photos, listen to segments of key calls, explore the timeline and dictionary, quiz, and explore additional resources for that era. Enjoy this journey of American history! Type: Tutorial of World War II: War Theaters: In this tutorial, you can use maps to explore the various theaters of war during World War II. Select the region to find out how the axis first dominated and then fell to the Allies. The resource includes other activities to help you learn about World War II. Type: Supervisor of the People's Demographics Lab: This lab simulation allows you to use actual demographic data, collected by the U.S. Census Bureau, to analyze and make predictions focused on demographic trends. You will examine the factors that affect the birth, death and immigration of the population, and you will learn how population transitions have taken place around the world. Type: Supervisor Yorktown: Now or Never: Watch the 10-part video battle of Yorktown, the culmination of the battle of the Revolutionary War. With French help, George Washington led American forces to victory, which ensured American independence. In addition to the video, you will find the primary source documents and graphic organizer to help you analyze the Battle of Yorktown in more detail. Type: Video / Audio / Animation Advanced Fire Simulator - Shodor: In this online activity, students burn a simulated forest and adjust the likelihood that the fire will spread from one tree to another. This simulation also records data for each study, including the likelihood of burning, where the fire started, the percentage of trees burned and how long the fire lasted. This action allows students to explore the idea of chaos simulation in a realistic scenario. Additional materials, including background information on the topics covered, a description of the application's use, and research questions for use with the applet, relate to the applet. Tip: Virtual manipulative box Plot: In this activity, students use preset data or enter their data to be represented in the box chart. This activity allows students to study both individual and adjacent points of land with different data. This activity includes additional materials, including background information on topics to be addressed, a description of the application's use, and research questions for using the Java applet. Tip: Virtual manipulative normal distribution interactive activity: In this online tool, students customize the standard deviation and sample size for a normal distribution to see how it affects the histogram of that distribution. This activity allows students to the effect of resizing the sample in the test and the effect of changing the standard deviation of the normal distribution. The tabs at the top of the page provide access to additional materials, including background information about topics to be addressed, a description of how the app is used, and research questions for using the java applet. Type: Virtual Manipulative Advanced Data Grapher: This is an online graphing utility that can be used to create box plots, bubble charts, scatterplots, histograms and stem and sheet plots. Type: Virtual manipulative histogram tool: This virtual manipulative histogram tool can help analyze the distribution of the data set. It has 6 preset data sets and a function to add your data for analysis. Type: Virtual Manipulative Multi Bar Graph: This action allows the user to graph data sets in multiple bar graphs. The color, thickness and scale of the graph are adjustable, which can produce misleading graphs. Users can enter their data or use or modify preset data sets. This activity includes additional materials, including background information about topics covered, a description of how to use the application, and survey questions for use with the java applet. Type: Virtual manipulative histogram: In this activity, students can create and view histograms using existing data sets or entered original data. Students can adjust the interval size by using the slider bar and customize other graph scales. This activity allows students to study histograms to represent data and concepts of medium, standard deviation, and scale. This activity includes additional materials, including background information about topics covered, a description of how to use the application, and survey questions for use with the java applet. Type: Virtual manipulative manipulative
