Fidget spinner io unblocked

Play full screen Spinz io Spinz io unblocked school spinner controls How to play Spinz.io (Spinzio) Use mouse to move the spinner Left click to increase the speed Spinz io Videos spinner name: Vili.io game: Vili.io is the fastest fidget spinner in the game. The spinner can grow 6 times the size and rotate up to 4.2 Quintillion RPM. That's too much. Ha-ha. Vili.io game was developed to add some fun around spinning your fidget spinner. In order to play longer you have to kill other spinners, collect doughnuts to get 1 RPM and then collide with other spinners to kill them. When you hit other spinners they explode bigger doughnuts than normal and also give more RPM value than normal doughnuts. The game was developed to add a few more features such as speed boosters, shields, RPM boosters and extra zoom. You can say that this is a combo Agar.io, Spinz.io, Wormate.io and your game (like shields and such). Gameplay: Use your mouse to move. Left-click or increase space when you're lifting you to disconnect the RPM-set random formula go speed boosters to quickly move in your direction eat small doughnuts to get 1 RPM for each piece. Hit other spinners to get the RPM quickly or kill them. Strategy: Well Vili.io is quietly complex and a little hard to maintain your RPM if you're too big. If small you just have to avoid other spinners to hit you. If someone hits you twice as much as your turn, you're going to die instantly. If less than 2 times if you lose RPM as much as the difference between the two. The major spinners open 10% RPM collision with all. So they should avoid killing too many smaller ones or else they will die soon. Use Speed Boosters to dodge other spinners and collect your food on the canvas. There are some Speed boosters that spawn additional food. So find them and get the RPM quickly. The future: There are tons of ideas that are under development. You'll see the news coming in the coming days. 2 more game modes are coming. They are fully developed and subject to extensive testing. There are more items to play.
