You may be able to find more information about this and similar content in piano.io would like to see *how* you did it! I added two links to the album. How I made macho man's crown and also how I made the Mask costume. I'm working on putting together the jack skellington photos. I'll send you the pictures on how I made the costumes tonight. I could just put a link to the album on facebook. This will be easier because there are over 100 progress photos for each :) fantasy. I used two poster plates to create the front and rear panels. With the third plank, I cut in half and doubled each half in half. This created a crease to look like a real paper bag. So I used duct tape and tied each piece, creating a long sequence of four boards. Using the black duck ribbon, I created stripes. For the first bag I made, I hid the whole thing, but for the second, I made light pencil marks to act as a guide. The second one came out better. Once the stripes were down, I tape the two ends tighter to create a cube, or bag. I used a hole to make holes for the rope handle and then tied tissue paper along the top edge. I also recorded on 2-inch wide black tape for as suspenders. They were crossed at the back to get better. For the word Sephora I simply printed on the computer using the Ariel Narrow font in 137 pt. I added a space of 12 pt en each letter to spread it only slightly. Making two of these took less than an hour.
