Telstra tool that helps you manage your mobile device. It provides seamless content transfer between devices, cloud backup and content restore, self-confidence to make your device work best, and assisted care where you need the support of a trained expert to fix problems. Transferring and backing up/restoring content: Use a Wi-Fi network or phone on a peer-to-peer network to transfer contacts, calendars, photos, and videos from your old device to your new device. You can also back up your cloud-based content to keep important information safe and then restore it to your new phone. Self-care: Self-confidence allows basic device diagnostics with a one-click resolution to ensure that your phone is running at its peak. Assisted-Care: With Assisted-Care you can provide an authorized Telstra agent with the ability to securely and remotely pair with your phone and launch a series of advanced diagnostic and hardware tests. With these tests, we can determine whether your device has a problem that can be solved, or confirm if there is a failure, and initiate steps to repair or replace the device, depending on the situation. The device's pre-evaluation options and ends the digital journey, which leads to the device's redemption in the T store. The app crashes when you import contacts from Google Drive. 4 signal bars. People around you telstra who have a fast connection, your phone can hardly open the page. Then oops let check the device's health with the app. Oh guess what. The device is healthy. Oh no, then swop your sim. Increasingly circular action. Oh, no, that's your phone. OK apple swop it out. And guess what the same question is, always a bad data connection. Pretty sure Telstra will shape you and blame sims and devices. Don't think this app because its results are misleading. The staff were very friendly and helpful. You can't scroll down the first page to even accept the rules. Cannot click Continue. If you can't scroll down to miss the app's first page, there's a problem. Telstra Corporation Ltd has not provided information about its privacy practices and data processing to Apple. For more information, see the developer's privacy policy. When a developer submits the next app update, they'll need to provide your privacy. The App Support Privacy Policy Telstra Device Care App is an innovative new Telstra tool that helps you manage your mobile device.
