So me and my sister were playing and I put a towel over her face and I said it was just for the game, anyway I took a razor and put my phone behind my head where her hair was, pressed the button on the button and put the phone on her head so she could feel the vibrations and then pretty scream Oh my God! I didn't mean the same thing! I didn't want to cut your hair, I promise! Then she started to worry and it seemed that the mirror frantically, finally began to open the bathroom door (we were already in the bathroom, so she headed out) Then I screamed Don't tell Grandma! (What we call our grandmother, who already knew I was going to fool her and knows how to go with her) my sister ran to my grandmother while I pretended to run after her in panic and yelled at mine I didn't want to cut her hair! After grandma pretended to frown on me, she told my sister it was all a joke, my sister got mad at me for chasing me and screaming You're so mean!!! I absolutely love this app! And I was already joking with my brother! I love him! Five stars! Tysm to create this app! This zero star app I would. I hate this app that is so bad for one when I want to touch as something vibration that you would not even turn on what? Also why you have your origin changes that is for a joke is not quite competition is very difficult to get it really not so you can do this and really very sorry about writing this and I'm sorry about the reason you gave it a star is because I couldn't give you zero, so that's my reason if you read this or you're this one is like a really bad review, so I just don't recommend it at all. Please do not get this app it's a waste of time if you have to pay for things from within why would I do it? Also can you please write worse for me because I want to sleep because I'm like, oh I'm like, if it's worth it because knowing that I want to have something good for a fool April, so I can take my mom my dad and I thought it would be great that I'm really disappointed that I'm very disappointed that it's bad too will be testing your dog talking app how you'll be more excited about testing this and I'll test it because I have two dogs at the moment one is really sick and it will die in 3 hours so you know if you can fix it make it a little more affordable will be very happy and I'll give you a better review thank you If you have any suggestions to improve the app, please contact customer support directly via the button in the app or email to support@firstclassmedia.co. My older sister drove me to the store to pick up things for my new apartment, and when we got back, she sat in the car while she was texting someone. I looked at her and I have a great idea. I don't remember buying a razor that big! She didn't look at me. But she said, Oh, maybe you just got it wrong. That's when I knew I wanted to make her laugh. I took my phone and pressed the button and turned on the volume. I pressed the button and she was screaming so loudly that I could still hear a ringing until that day. She felt her head and screamed what was wrong with you! My hair is choking because of you! God... so stupid!! I explained it to her, and she told me she was going to make me pay.
