Application made from an elegant cube, more reminiscent of a LEGO virtual designer. Here you go to the lands of the future, where anarchy reigns and your mission will be to restore order on the roads. The main feature of the game is that you will create your own transport, giving it any appearance, color and even features. Weapons-free on the streets is now dangerous, so don't forget to equip police vehicles with powerful futuristic rifles. By the way, on a car, you can put up to five types of weapons of different scales of destruction. There are only a few places to play, and gangsters of different plans will fight you on each of them, and it is not always easy to win. Organize before the real chaos begins. by Rexdl August 13, 2020Sereal: 1.6.2File size: 55 MB 46 MbMemorize: www.ReXdl.comHovercraft: Takedown is the combat race #1, building custom vehicles, totally addictive, based on physics, action game of the year!
