isTom Games Android 2.3 + Version: 8.6 \$0 Nyan Cat: Lost In Space (MOD, Money/Ads-Free) - Little Cat, you know well how Nyan Cat is lost in space. Help him collect as much diverse food and drinks as possible. The game is very addictive! Update to version 8.6! Endless runner fun with side movement. Under the control of gamers are many famous furry cats Nyan Cat, sent wandering through the infinite universe. The immense universe is full of many deadly dangers, but still here you can find food. The gameplay is quite simple, gamers need to help their four-legged hero move on different platforms located in different areas of mysterious space and make jumps from person to person. If your hero character will not have time and it will move to the edge, or if it catches the enemy, then you must start the level from scratch. In the mysterious outer space there is an unthinkable number of all kinds of objects. Finding food will add special points to players, and gold coins will allow you to unlock items in a virtual store, so it would be good to get them all at once. In addition, during the implementation of the stages, users who happened to Nyan Cat: Lost In Space, will be able to find special bonuses that can turn their protagonist into a super cat. The result of the game is as follows: this is a very funny, interesting runner, has great graphics effects and pleasant sound.
