I've been playing for a few weeks without complaint. Recently started playing several ads one before the level and after the level and sometimes you can not close the level because the ad freezes the game. I still played until yesterday when the mid-game ad came along, it was pro-gun propaganda shaming politicians who wanted to ban assault weapons in the US. It also keeps trying and asking you to sign up with a terrorist organization that will give you a tee shirt to sign up that says if they ban assault weapons, call me a criminal or something on That line. I don't think it's the right ad to run in games especially when kids can and play games. I'm going to warn my friends and wipe out this game. Hai! We apologize for any inconvenience caused to you. It's not something we take lightly. Please write us an email to support@ilyon.net screenshots attached, so we can resolve this issue quickly. Sincerely, Ilyon® Support. I have been this game for some time now and I really enjoyed it until this morning! I went in and had to pay 2 1/2 times more to refill my life than yesterday. Serious????!!!! What the hell! (I'm sorry for my strong language but I'm very upset!) I am disabled and have a primary age child with autism and sensory disorders; needless to say, I play games on my iPhone to maintain my sanity and strive to keep my mind from the fact that every second I live with is terrible pain. I didn't get a disability because of my advanced level of education so I didn't have a lot of money, which is why I was upset about the price increase. This may not seem like a

big deal to some people, but I'm sure a lot of people feel like I do. It may seem petty and like this is a stupid complaint and maybe it is, but I feel I should mention it. I'm sorry if anyone reading this thinks I'm just being petty and silly. if you do, just go ahead and ignore this review. It's a good game overall otherwise. Hail We always make improvements in the game, in an effort to make it exciting, fun and challenging. From your description, it seems that you have experienced a technical problem with one of the features of the game. Don't worry; we are here to help! Please contact us support@ilyon.net so we can resolve this issue quickly. Sincerely, Ilyon® Pro: this game is very fun to play and they are generous with life. You get six each round instead of the typical five and there is often an opportunity to get block six for the bank to play extra. Cons: At first you think it's ad-free but once you're hooked, there's an ad after each round. They are in most cases only 5 seconds so it is not a big deal but some are longer and have been known to freeze the game so you need to turn off. The boosters they provide don't always work the way they should so I hope they will be resolved with the next update. I played some of these games and this one, I think is the most rigged against you and makes the strategic game a little more difficult and more dependent on the luck of the draw. All in all I recommend it, because of the fun and generosity with which life continues to extend play as possible. Hail! Thank you for taking the time to share your feedback with us. Our main goal is for our players to have fun. We have forwarded your feedback to our developers for further review. You can always share your thoughts with us at Ilyon® Support.
