Read more View more according to Tanya Watkins You can play games on your computer without spending a cent. Several websites are dedicated to providing computer games for free. Some of the games offered are trials before buying, while others are completely free. Download-Free-Games.com offers many classic games to download. Family Feud, Monopoly, Scrabble, Bejeweled, Life and Risk are some of the games on offer. This website offers a variety of categories, including card games, board games, children's games, puzzles, racing games, simulations, war and strategy games and word games. The site offers games that are completely free or free trials games you can buy. Free trials allow you to try the game for a limited time or lock some features. They require you to buy the game to continue playing or unlock some features. No adware or spyware has been reported from a site that offers more than 800 games. Net-Games.biz free games, online games, a player club and multiplayer games. The site's free play offering includes action, arcade, racing and puzzle games. It lists the players with the best scores, the top 10 games and the IDs of new users. Yahoo! offers a wide range of web-based games that don't require downloads for adults and kids. Yahoo! also offers free games that can be downloaded to your computer – some of them free trials. Yahoo! offers sports and educational games for kids. It also offers arcade, card and holiday games. If your child gets bored with games easily and always wants to play something new, try Yahoo! If your child loves all of Disney, consider Disney's website. Most of the games include Disney characters. They include Hannah Montana Rock that Beat, Tink's Fairy Tag, Bayou Adventure, Pixie Hollow and Zake, and Luther's Donut Run. Sign up with a Disney account to access these favorites. On the holiday weekend, we wanted to offer you more ways to have fun. The following sites allow you to play and download classic and retro games such as DOS games, classic adventure games and old console games. Anonymous Game Developers (AGD) Interactive AGD Interactive is a game development group committed to bringing back classic adventure gaming by making classic Sierra On-Line adventure games like King's Quest. They've remastered them with enhanced graphics, a polished sound show and more, and now offer them as free downloads. They also have a commercial adventure game company called Himalaya Studios. VirtualNES VirtualNES offers hundreds of vintage Nintendo Entertainment System (NES) games that you can Online. They also offer some special games, such as games of enterpric developers, unrealed games that were left unfinished, and excellent homemade games from people who love video games and decided to make their own. NES brought home console gaming to life when it came out. Nintendo8.com Nintendo8.com offers hundreds of classic 8-bit Nintendo games from the 1980s and early 1990s. It is a link site that doesn't really host RODS. All games linked to the site are assumed to be abandonware or copyleft. The games use the vNES emulator of the aforementioned VirtualNES website. They also have some sister sites that offer other classic console games that you can play online. Snessy (SNES games) c64i (Commodore 64 games) DOSDose (DOS games) MasterSystem8 (SEGA games) GBemul (Gameboy games) DOSBox DOSBox offers a full DOS environment that uses ancient DOS applications on Windows, Mac OS X, Linux and other UNIX operating systems. It mimics an Intel x86 computer with sound, graphics, mouse, joystick, etc., which is essential for running many old DOS games that cannot be used on modern operating systems. They also offer front parts for DOSBox, such as D-Fend Reloaded (discussed below) to make it easier to use DOSBox. See our article for more information about using DOSBox. D-Fend Reloaded D-Fend Reloaded is a graphical environment or frontend for DOSBox. Installing and configuring DOSBox can be complicated. The D-Fend Reloaded installation package includes DOSBox, so only one installation is on the threde. DosBox does not need to be installed manually first before installing D-Fend Reloaded. There are also links to available games on the download page. You can also download PacPC, Ms. PacPC and PC-Bert, which are clones of PacMan, Ms. PacMan and Q-Bert. For more information about installing and using D-Fend Reloaded, see our article about it. MAME (Multiple Arcade Machine Emulator) MAME is a nonprofit project designed to preserve many historical arcade games so that they don't disappear when the hardware they operate on stops working. In order to play games on MAME, you need to deliver the original ROMs, CDs or hard drives from slot machines. There is no original game code inside the MAME executable file. For MAME, there are also fronts (available from the link above) that make it easier to use, or you can use MAMEUI, which is MAME's desktop-based GUI front. Check out our article about playing classic arcade games on your computer to learn more about MAME and MAMEU.
