September 9, 2015 The official release date for Dead Effect 2 has moved to October 22, 2015.June 12, 2015 After months of intense development, we are very proud to announce the official release date of our action sci-fi game, Dead Effect 2. Dead Effect 2 arrives on iOS and Android for the second week of September 2015. Save the date! The story takes you back to ESS Meridian, exactly where the original plot ended. However, you are not meant to take a rest; something boils deep in the corners of the spacecraft. It's far more dangerous than a horde of the undead - it threatens to enslave your mind and bend it into your regret. Are you going to defend yourself? Breathtaking graphics exciting gameplay smart storyline three characters to choose from from a large range of enemies unique boss fights hundreds of items to upgrade your device implants to increase your character's body more than 40 unique types of expandable weapons optimized for Tegra devices and new nVidia SHIELD 4K consoles Want to know more? Find us at the E3 Expo in downtown Los Angeles (June 16-18) or schedule a meeting! Today is a great day for all of us in BadFly, a day of pride and pleasure. After nearly 10 months of development, we are now finally ready to officially announce our upcoming sci-fi game Dead Effect 2. We are also very proud to announce that we have found a new, strong partner - nVidia. We are working together to develop our game with maximum support for Tegra chips, as well as designing for use with the newly announced SHIELD console with X1 chip. The game is being developed primarily for most Android- and iOS-compatible devices and you'll be able to play it in the third quarter of 2015. With over 8 million downloads of Dead Effect, our team's goal is to create a new generation of mobile action shooter that offers you an intense gaming experience in console quality, enhanced with lots of brand-new game elements. Description of the story In the distant future you will find yourself again aboard the ESS Meridian, far from Earth, in deep space. You were created as a weapon, without fear or restraint. But right now, they can't control you. An unexpected danger lurks in the shadow of the spacecraft. Someone or something new is waiting for you. He has the power to take over your mind, and when he's there, he'll never leave. Will you become a hunter or prey? The scale on the characters is insane. Is the chick in the dress disturbingly small? I think my hand is much bigger than her whole head, her body is like 6 years old, but with tidy. It's really weird. The other characters are pretty small too. 16 hours ago General discussion announcement: Requires one of the following virtual reality headsets: HTC Vive, Oculus Rift or Valve Index.
