Mark Scott For decades many of us have decorated Christmas trees in our homes with baubles, lights and beautiful decorations - but why do we have Christmas trees? And where does this tradition come from? Bringing evergreen trees indoors has traditionally been used to celebrate winter festivals - both pagans and Christians - for thousands of years. Pagans would decorate their homes during the winter solstice with tree branches as a symbol for thinking about spring that was just around the corner. The esoli were also used by the Romans to decorate their temples at the Saturnalia festival, while Christians used it as a sign of eternal life with God. Germany is also largely responsible for starting the Christmas tree tradition, as many Christians have begun decorating trees brought from outside. Those who didn't have trees - or couldn't afford them - would instead make their own clever alternatives using wooden pyramids. Some of the first Christmas trees in Germany were decorated with delicious edible decorations, such as honeysuckles and apples covered in gold (glassmakers would also hang special small ornaments made by themselves). Who brought the Christmas tree to the home first? A 16th-century preacher, Martin Luther, was recorded as one of the first people to bring a Christmas tree into his home—and one of the first to add lights to the tree. According to tradition, one year before Christmas, Martin was seen walking in the woods and looked up to see bright shining stars shimmering through the branches of trees. To recapture this scene for his family, he put a tree in his living room and wired its branches with beautiful lights. MrsGetty Images When did the Christmas tree first come to England? While Queen Victoria and Prince Albert are said to be the ones that made Christmas trees popular in England during the 1800s, they date back much further than this. The tradition came from Germany, where King George III's wife was born. His German wife, Charlotte, was thought to have used it to decorate a Christmas tree with her family during the 1760s. Charlotte placed a tree in the Queen's cottage in Windsor for a children's party for those who were rich and noble. Not long after, the tree became popular among some wealthy families as well. In 1848, a drawing of the 'Queen's Christmas Tree at Windsor Castle' was published in the addition of illustrated London news. After many read this, the decoration of trees began to grow in popularity. What does the Christmas tree symbolize? Long before the advent of Christianity, plants and trees had a special meaning in many people during the cold, winter months. Just as many of us decorate our Today, ancient cultures would hang evergreen branches across their doors—many even believed it was something that could keep witches, evil spirits and diseases at bay. Back in 2004, Pope John Paul called the Christmas tree a 'symbol of Christ'. He said this ancient tradition extols the value of life and reminds Christians of the 'tree of life', which is found in the first biblical book of Genesis. Mark Scott How have Christmas trees changed now? Similar to very early Christmas trees, we still decorate with our baubles and hang them with lights. Buying a real Christmas tree is still a tradition for many families, but over the years we have seen an increase in the number of artificial timbers, especially pre-lit Christmas trees, as people opt for restless, low maintenance trees that they can use again every year. We've also seen decorations take a more extravagant twist, with trends such as rainbow trees, sunflower trees and multicolored 'party' trees shaping the way people decorate, as well as wooden Christmas trees and twigs. These alternative trees gain greater popularity every year, and some households completely throw away trees, instead of deciding to decorate the plant as a Christmas tree. Do you like this article?
