Retro gamer magazine old issues

Does your child love video games? Does he or she need some summer reading material that doesn't conjure up a vision for school? Then check it out: Now you can get 12 free digital editions of Little Player, a video game magazine created specifically for kids. Download year one (issues 1-6) here and year two (issues 7-12) here. The idea for the magazine came to a dad named Martin Alessi when he noticed that while kids are obsessed with gaming, all the video game media out there is designed for mature audiences. One of the greatest joys I remember from my childhood was getting a nintendo power release in an email, he writes. He wants today's young players to experience the same thrill of exhaling print. Little Player, geared towards children aged 5 to 12, is written by video game industry veterans, teachers and mothers of gamers and dads. I checked out Issue 9, which offers previews of games and hardware, big and small reviews by adults and kids, special moves you can make in Super Mario Odyssey, and the story of how Super Mario 64 paved the way for this generation of Super Mario games. If your children have their own review to share, they can upload it and possibly see how it was published. If all this makes you, a parent, a little wistful, know that every Nintendo Power number is also online. You are welcome. Home / There are so many tools to help you create super-responsive, responsive mobile apps with web standards – but which ones should you choose? In the new issue of our sister title .net magazine, currently, PhoneGap founder Brian Leroux's comprehensive guide helps you compose the right stack of technology for your next mobile project. Meanwhile, in the tutorial section, you're in tutorials on creating a CSS3 product wall, mastering the history API, creating adaptive content in Drupal, and building apps with Laravel. Plus: John Cleveley and Tom Maslen explain how BBC News keeps browser support of the future friendly to all. User experience strategist Stephanie Troeth chats with Tanya Combrinck about being jack-of-all-trades. Dan Saffer explains how focusing on microinteracts can improve your product by increasing the way users experience it.... and much more! If you work in the design and development of websites, .net magazine is an indispensable reading. For more information about the new release and to buy a printout or digital copy, click here. For more information about .net storage, visit our website. Cover Story: The Child Who Turned Down \$1 Billion, p. 74. Silicon Valley was full of buzz when Mark Zuckerberg and his geek buddies blew a golden opportunity last year when they switched to joining their Web 2.0 startup with the big media giant. In a rare interview, Fast Company Senior Editor Ellen McGirt reveals why the 22-year-old hacker-turned-CEO turned down \$1 billion and reveals his plans for Facebook's future. DayJet plans to revolutionize airlines p. 100. DayJet math wizards combine numbers with powerful software and not the traditional approach to building a smarter air taxi. Fast Company Contributing Writer Greg Lindsay is available to discuss how DayJet's unconventional thinking can change the travel-seller problem. The solution to make piracy profitable, p. 53. Are lawyers the only solution to viacom's ongoing \$1 billion copyright infringement lawsuit against YouTube? The May issue of Fast Company reports on an emerging strategy that co-optimizes video pirates to spread the media virally for the owner's profit. The new plan is tied to high-powered search technology that allows people to find videos containing specific words and can force them to watch ads before they reach the video. Fast Company Contributing Writer Adam Penenberg is available to comment on Viacom's suit, the growing piracy of copyright films, and provide a strategy that makes piracy profitable for copyright holders. Appeal and risk of brand authenticity, 82. In an increasingly glossy, fabricated world of spun news and imaginary experiences – where almost everything we encounter is created for consumption – elevate the brand above the fight requires an extraordinary blend of creativity and discipline. Nowhere do you see the challenge more glaringly illustrated than in the pursuit of authenticity. When a brand claims authenticity in a clumsy way, it quickly breeds distrust or at least a lack of interest. Fast Company Editor Robert Safian is available to discuss how BMW, Nike and Starbucks sell authenticity and give guidance on what it takes to make your brand real in an ultra-competitive market. Can workaholics change their ways, 37. Boston Consulting Group (BCG) recently launched a new program aimed at uprooting and taming chronic workaholics. Under the new plan, consultants who average more than 60 hours a week over any five-week period are flagged in reports and provided many time-saving solutions to help manage their workflow. Fast Company Executive Editor Keith Hammonds is available to discuss the successes and challenges BCG faced under this new program. Innovation Scouts, 90. In the combined economy, companies cannot rely on the same old ideas. To succeed, companies need to discover innovation from unexpected sources in unexpected ways. Fast Company Staff Writer Danielle Sacks is available to discuss how creative tech and media companies are discovering new ideas in unexpected locations, including an American Idol-style competition at Adobe Systems and a new eBay team disrupting. Workplace games that corporate culture, p. 61. Do you want to opt out of employees from 900% to 100%? Every two years, Whatsburger - a family business that started with one burger stand in Corpus

Christi, Texas and now covers nearly 700,700 in 10 states , it gathers its top employees to compete for bragging rights, cash, prizes and medals in creative mass training and loyalty exercises that impersonate a corporate Olympics called WhataGames. Fast Company Senior Editor David Lidsky is available to discuss how Whatsburger uses corporate culture to maintain low employee retention and motivation for high.iPhone Alternatives, p. 96. Apple's iPhone is expected to hit stores this summer. For those who can't wait or are reluctant to shell out \$500 - \$600, That Fast Company Senior Editor Ellen McGirt is available to provide a feature-by-feature partition of the new iPhone - and discuss how it stacks up against six competitors that already offer visual voice mail, desktop-style internet, and similar features. The Rise of the Professional Web, 56. Fast Company Senior Editor David Lidsky is available to discuss the latest professional websites designed to help you manage your career and do your job better. Latest in Ultra-Light Camping Equipment, p. 66. With advanced technologies and advances in design, outdoor adventurers can halve the load. From comfortable backpacks and sleeping bags that fit into the side pocket to the fastest-growing lightweight stove, fast company editor Ellen McGirt is available to demonstrate the latest lightweight outdoor sports equipment. A Look to the Future of Bagless Travel, 66. Business travelers are happy! Why bother transporting your luggage to the airport when you can clean it, pack it up and send it for you. Fast Company Senior Editor Ellen McGirt is available to discuss the growing popularity of baggage delivery services and take a look at the future of bagless travel. Back to lifehack target press releases is a powerful tool that helps you achieve goals in different aspects of life. By subscribing to your goal(s), you'll receive a personalized article (tips to go through on your own) every day. Previously, your email inbox is the only platform you can access your goal articles on. And most of the time, the mailbox is bombarded with requests from colleagues and a lot of irrelevant promotional content. You may not be able to catch all the Lifehack Goal emails we sent. Today, we're happy to introduce For You, a new lifehack section that lets you catch up on the latest goal articles. You don't have to worry about missing articles that are recommended for reading anymore. After logging in to Lifehack, you are expected to see this section at the top of the homepage. With For You, you can check all your goals and relevant articles. This will certainly make everyday reading easier. Now just learn and grow by reading articles about goals without further distraction. To use this exclusive feature, subscribe to our goals here. You can access the For You section immediately after registration process. Monday January 11, 2021 7:19 AM PST by Joe RossignolA part of the all-digital CES 2021, kensington accessory manufacturer today unveiled StudioDock, an iPad Pro docking station that also includes built-in iPhone and AirPods wireless charging and an optional Apple Watch charger.
