Hot, who is best known for cracking Apple's iPhone, said in a blog posting that he decided to continue to exploit to see what he could do with it and therefore he wanted to move on to other tasks. Hopefully, it will take the PS3 to the scene, and you find out how to use organized and practical things, like the call that Was First Released, Jylbrax, he wrote. I have a life to get back and can't work on that day and night. On Friday, he said he did apply very simple hardware cleverly, and had managed to hack PlayStation 3 after five weeks of work with some very easy software not. PlayStation 3 consoles usually only run software that is digitally signed by Sony. This software is part of the complex digital rights management system designed to fail piracy but the hack represents the first in this digital protection. With the release of online exploitation many programmers will likely start checking PlayStation 3 for ways to get deeper into the system. For some important purpose is the encryption system that ensures illegal copied games cannot be played on the console while others will be encouraged by the technical challenge of running their own software on the powerful PlayStation 3 platform. PS3 is hacked, it is your job to find out something useful to do with it, it's written hot z in a zip file involved with exploiting it. Works in close close with othraus facility that allows another operating system to be installed on the machine. This feature was closed on new model machines, so-called PS3 slim consoles. Sony is also investigating the code. Its Tokyo-based gaming unit, Sony Computer Entertainment, said it has a hot and refused to comment until it has completed its investigation. If the software is better then Sony can be pushed to release a firmware update that attacked this system through which holes or holes plug in. This is what happened when the hot z phone breaks. Apple started a virtual cat and mouse with developers and will rush system updates as soon as the new version of phone-jailbreak software. Copyright © 2010 IDG Communications, Inc.
