Home Game Cube/GC Rom Action Description: Sonic Adventure 2: Battle is fast action, with the possibility of both games, a good storyline that gives you the opportunity to try to save the world from either side Or try to take over the world on the dark side. Two new characters enter with the game in Sonic's universe - a mysterious black hedgehog named Shadow, a bat thief - and a jewel called Rouge. In single-player mode, you have to go through more than 30 unique steps, including ancient pyramids, secret military bases, and abandoned giant space labs. As well as the game has 12 characters and different modes of play and an extended game mode for two. This is the biggest Sonic adventure ever made! The plot of a single game is divided into light and dark story. Players are free to play each of the stories according to their wishes, because they are only related to the story (there is no need to open the next level of one of the stories and pass the other). Brights include Sonic, Knuckles, Tails and Amy, dark history includes Shadows, Rouge and Eggman. Each character hero performs a role that corresponds to one of the darker characters, and vice versa. The level a player plays for Sonic or Shadow is a typical platformer, very similar to Sonic's Sonic Adventure level, and the player's job is simply to reach the end of the level. At level with Teils or Eggman, players shoot enemies in mechanized robots, which are essentially similar to levels with E-102 gamma in sonic adventures. The level of knuckles and rouge is based on hunting for some of the Emerald Masters (in two levels of keys at Eggman's Base). You also need to find three emeralds of chaos on one level for rouge. Playing for these characters in dynamics is similar to playing for . in the first part. During the game, show scripted scenes and videos between player levels, in the same way, between levels and sometimes come across bosses, sometimes in their roles as opposed to in the world. To complete the opening of the story you must East Sea through two stories (for good and evil), you will have to play for all the characters to open the final story. The more rings and less time, the higher the hero's score. Players are also given character ratings: A, B, C, D or E. A is the highest and E is the lowest grade. Each level has five missions. To get the second mission, the player must complete the first mission to get the third mission, and the second mission must be completed. These missions are to complete the level. Collect 100 rings Use mystic melodies to find the lost Chao. Complete the level on time. Complete the hard attack version of the level. Emblems are also mined during the game. There are a total of 180 emblems. To collect all emblems, players must pass all missions in the level, get A grade everywhere, and win every race. This level is a 3D translation of the original Sonic the Hedgehog game. Screenshot copyright data games (ROMs) are provided for review only, after which they must be removed from the medium!
