

Alongside my beloved wife, Angie, we are blessed with six wonderful children and the joy of being grandparents to an adorable grandson. Family lies at the core of my values, and I am committed to ensuring the well-being and prosperity of not only my family but every family in this extraordinary city. La Verkin holds immense promise, and its future is undeniably bright. If La Verkin were a stock, I would invest in it without hesitation because I believe in its potential for growth and success. As a candidate for City Council, my primary goal is to work towards a thriving community where all families can flourish. State Street presents a remarkable opportunity and is a valuable asset that, when thoughtfully developed, will enhance the beauty and charm of our city. I am dedicated to collaborating with private property owners and stakeholders to ensure State Street becomes a stunning and vibrant centerpiece of La Verkin. I envision La Verkin as a community where families can not only live but truly thrive. By fostering strong relationships, promoting local businesses, and ensuring access to quality education and services, we can create an environment that empowers every resident to reach their fullest potential.
