

### Introducing Randy Scott Jaques - Your Dedicated Councilman

For three decades, I've proudly called La Verkin my home. As a Hurricane High School graduate from the class of '96, I've seen this community grow and evolve, which fuels my passion for its future.

With over two decades of experience as a certified arborist and a successful business owner, I understand the importance of balance, growth, and sustainability in our town.

My decision to run for city council stems from my deep-rooted desire to preserve the small-town charm that makes La Verkin special while also striving to enhance the quality of life for all our residents.

Two crucial issues close to my heart are responsible development and sustainable water management. I believe these are pivotal in ensuring La Verkin thrives while maintaining its unique character.

My primary focus as your councilman is to listen to the needs of our community's individuals and families. Your concerns are my concerns, and I'm dedicated to representing your voices effectively.

Outside of my role on the council, you might find me indulging in hobbies that reflect my connection to this community, such as [insert hobbies here].

I want to convey a message of appreciation to the incredible community we're part of. We are fortunate to reside in one of the most beautiful parts of the world, surrounded by friendly and amazing people. I

cherish our quiet and peaceful small town atmosphere and aim to preserve it for generations to come.

Together, let's continue to make La Verkin a place we're all proud to call home.
