In addition, all the products listed here are 100% tested to work in uncertain conditions, they can be used in all seasons. I was skeptical, but I saw the business owner talking about it, and decided to try it. I knew there were at least two,or three big dollar bedding in a thick area of public hunting, which had very little, or no pressure from gun hunters, so I connected with my best friend, and headed to set my octopus up blind, on a main road leading in/out, from what we knew was his daytime rest area. I applied this evercalm to three trees,about the height of the nose of a deer right next to the trail using a liberal quantity in the bark , then came out for 20 yards, and put the blind up, and hidden for the night. We didn't see anything until 15 minutes before the end of the legal shooting, and this old man came out, and headed right down the road. The dollar walked right in front of the blind, saw us, and just froze.. I knew something wasn't right. My friend, and I froze too, wondering if the hunt was over, because it burst us. The ladder outside lasted 10 minutes , and then passed.... he picked up the smell coming from the trees, and immediately changed his attitude, and took his attention from us, and just calmly began to navigate the bushes , right next to his right shoulder. My friend , and I could not believe it, because we had just burst, but the smell calmed him down, and it was as if he forgot everything about what he just saw ... two guys on a blind looking at him. Lol. With the old sailor away, as quiet as he could be , my best friend raised his crossbow, and lights out!... 18 m... Heart! Taxidermist said the deer was at least 7 or 8 years old.... He was a giant of public hunting , he had overcome countless hunters I am sure. Evercalm works?.... YES IT DOES! From now on, you always have it in your bag when you go hunting.... Thanks Perfumes of conquest. User rating: 4.65 (1 votes) I wanted to share an Evercalm Deer Scent review and provide my opinion on why I think this scent stick really works. Conquest Scents produces Evercalm in Davison, Michigan. Conquest Scents operates a deer farm and has brought some in the world of deer hunting. Evercalm is different and that's what makes it so special. Evercalm is a stick smelling of deer that is not associated with season, sex, attitude. I started deer hunting in the 1980s. The only smell of deer I It was Tink's 69. Tink's 69 is a doe in estrous aroma and has been well known for bringing success during the routine. Basically, the aromas of Tink and most deer were stanza aromas. Evercalm Deer Herd Stick is basically the same consistency as deodorant. Stanza smells are very expensive because they can only be collected when the scalding is in heat. This also means that aromas have higher success rates during breeding seasons. Doe Estrous Scent Can Cause Problems Estrous scents can alert dominant does in the area Young deer can be attracted to stanza smells and detect the aromas of hunter Estrous can cause mature males wind down La Rut is the only safe time to use stanza aromas What is Evercalm Deer Scent Evercalm Deer Scent Herd Stick is a secret recipe for deer aromas every day. The normal smells and smells of deer in bedding areas combine to create the scent of a deer. Smells help cover the human smell. Natural and everyday smells also help keep deer at ease. The result is deer that walk through the wind and avoid scaremongering. Evercalm Herd Scent can save hunts. The best time to use Evercalm Deer Scent Evercalm is not a stanza smell. Evercalm deer scent stick is used at all times during the season. I use it in EVERY HUNT. I can't think of a single situation where Evercalm scared the deer. This is based on my experience using the product for each game over the past 3 years. I don't hunt every day, but that's still a lot of data to support a good product. Great Times To Use Evercalm Herd Scent Checking Trail Cameras Hanging Deer Stands Running Drag Rags Ace a Cover Scent Setting a Ground Blind My Evercalm Deer Scent Review I bought my first Evercalm stick for \$20 to 2015. I was planning and packing for my Illinois tilt. My plans for Illinois also included my DIY ozone generator. Evercalm Deer Herd Scent works very well, but nothing can overcome lazy odour control. The packaging is resealable to keep the stick fresh. Unfortunately, the resealable bag is made of the strongest plastic on the planet. Immediately have the original package and replace with a ziploc sandwich bag. As soon as you break the seal you can smell deer. The smell is nothing like stanza aromas or other cover aromas on the market. It's just a simple animal smell that's far from overwhelming. You apply Evercalm to the base of my grandstand. You also apply a small amount of Evercalm to the tree trunk above my grandstand. The idea is to have a cover smell at all elevations. EverCalm Field Test in Illinois On day two of my Illinois hunt the guide put me in a stopover. I usually prefer to be more off the ground, but he assured me it was a great place. An hour before dusk I see several ag and fawns approaching. Looks like they're going to pass just below my stand and wind down. There is nothing worse than having deer snoring and blowing during the first Time. The closer, the deer got the more nervous I got. Two fawns passed only the wind down my staircase and continued to feed quietly. A doe and a fawn looked for acorns just the wind of my staircase. Both the old doe and the fawn passed between my staircase and the tree! The fawn actually licked the ladder where He had applied Conquest Evercalm Deer Herd Scent Stick. Another fawn and old doe were headed dead to my tree. Both the old doe and the fawn passed between my staircase and the tree! The fawn actually licked the ladder where He had applied Conquest Evercalm Deer Herd Scent Stick. All the fas and fawns continued to feed calmly and gradually passed without alarm. I really feel like this would never have happened without Evercalm. How Long Does a Stick of Evercalm Last My Illinois hunting trip was really the first chance to see the positive results. I have never been disappointed with Evercalm after 3 years of testing and field testing. A stick will last most hunters all season. I opened a new Evercalm pole on September 12, 2017. I used Evercalm on every hunt during the 2018 season. Here is a quick recap of my 2017 and the reason I recommend Evercalm Bowhunt to NC. 88 degrees at the end of September at night. 4 Enter the food patch while getting quartered in my wind. The biggest doe took an arrow to 18 yards. Doe came down thanks to Evercalm and a good November 5 odor control strategy still bowhunting in NC. Trying to fool the wind he was cutting the back corner of a sliced cornfield. It had 15 deer pass wind down without a single alpha doe stomping, snoring or blowing. November 11th in my favorite battalion. In daylight a small peak is licking Evercalm at the base of my grandstand. Peak and 5 feeds in the area for 45 minutes without being alarmed. Finally a wide 8 point came in to check the do and gave me a shot from 24 yards. Evercalm Deer Herd Scent did not bring in my goals, but kept my goals quiet. He also kept live cracks in front of my stand. You can learn more about the aromas of conquest on the manufacturer's website here. An Evercalm pole lasted the entire NC deer hunting season. This is a very good value at \$19. \$19.
