Are you extreme enough to take on the Challenge of Bubble Shooter Extreme? Try it today FOR FREE! Did you like the game? We would like to get your feedback! Tell us what we can add to make your gameplay even more enjoyable and get your 5 star

review. Bubble shooter! Extreme is free to play, but some optional elements in the game will require payment. All bubble shooter rights™ are owned by Ilyon Dynamics Ltd. We're bringing out the new version, so check what's we have fixed problems with chain bubbles, and added indications at more challenging levels.20 NEW levels to help you help your bubbles! Thanks for playing Bubble Shooter Extreme! After each update, rate us. I really like this game because bubble shooter games are always fun for me, but this game has some things that have irked me so far. One of the small things that made me angry was when I tried to play this game in the car, and I'm not even joking, every 2 seconds I would open an internet tab and go to some random website that sells the product. Every time I would go back to check if the ad under the game matched what took me too, but it never did and I could almost guarantee that my finger didn't hit the ad either way. It's also really annoying when I finish the level and the game gets frozen in a state where it waits to shoot the next ball, but there are no more bubbles to pop, and nothing even happens when I try to shoot. The last thing that makes me the most is when they give me 10 different bubbles in a row that I can't even use. It's especially frustrating when it's at the beginning or end of the game because that's when I have to either start the game or finish with the limited amount of bubbles that I have. I saw that someone else had left a check on it, too, and I was so relieved to know it wasn't just me. Updated update: I've been stuck at level 584 for a few days now and even after spending coins on a few things, I still can't get past it. I don't think they're giving you enough shots for a crazy amount of bubbles at this level, and I feel like they want me to spend money to get ahead of him. I love the mindlessness of this game, which allows me to numb my brain for a few hours & forget my problems. The drawbacks are when the game freezes in the middle of the game, which requires a complete performance of this game. Even when it just literally shuts down I lose everything again & I need to restart this particular game. Some time in a while I will play level several times because the color of the balls to shoot are not what it takes to win & so you lose again! Arg! I tried to restart the phone, uninstalling the game (twice) & nothing solved this problem. If you choose to live with glitches the game is a challenge & fun win, win, win! I'm giving four stars. I've been playing this game a long time. I'm on level 532. This game is good, and now it's getting worse and worse. 1. If you haven't updated to iOS 12, this game keeps forcing you out, causing you to lose your life in a pop-up limited time challenge! Sometimes the power ball and fireball are not available! This has never happened before. Really annoying!2. After the update to iOS 12, I got the most updated game. Said bugs have been repaired, but the new UI is really ugly! Who cares about that stupid robot?! I want to play a simple game to relax! 3. The algorithm that creates the balls has changed to create the least searched color first! I understand developers want it to be hard to play and the product people want to earn from it. But because of this you will lose your loyal players! I really don't want to give up anything I've already started, so I'm still playing the game. But if this game keeps doing these things, I'm sorry I'm going to have to say good-bye to you. I'm sure there are other good games to play for. Hey, over there! Thank you very much for sharing feedback. Could you please send us more information support@ilyon.net? We are very interested in your experience and additional information, so we can investigate the matter further! Honestly, Ilyon support.
