But if you manage to surround the enemies you can not only get rid of them, but also steal all the delicious snacks they have picked up from them. There are also other bonuses in the arena that improve the worm's stats. Use them wisely, they will help you achieve the goals you want! Good luck, little worm! November 1, 2020 Version 1.6.1 Hawkers Focus Worm Area! Spook all the other bugs with your new Halloween costume and go into a food coma with all the sweet treats you can find. Let's also say a sweet goodbye to all the bugs that have made our lives worse. Farewell! Happy Worm -o-ween Ghost! This game is just - I love it! It can get behind it from time to time, but I love it! I highly recommend it! Everything is child friendly! You can't do much, but it's a 🤩. I spend about 5 hours a day playing this game. Its very addictive, my big lil brothers play it. I really enjoyed the game and hope others rate it 5 stars! And no, I don't :) Do not change it. And if you suggest something, it's clear that you don't really like the game. Don't change the game. I enjoy it very much and I hope you can do it all! This is a very addictive game with short reviews. I hope it stays the same forever. If banned, I will be devastated. Read about This ThaisM! :) The reason why I used to kill my head every time I knew a little bug dies every time I tried it why did you guys take it away from me? Why do you guys drop worms in front of me and I just look like you're doing this with one intention and it kills me. That seems like a dirty pool for providers of games to do. I see a lot of games when I play so I like to run wide open as fast as I can go so I can watch a lot of games and truly think that I'm being treated unfairly by game providers who will go hard and delete games, but I really like playing when it's so fair for me! Here's one more thing I found that gold-long site bottles don't give me full time to work really hard to get why this is happening? I need a long site that runs fast the way I like, so it's a very bad thing to do to a player! What I'm asking for is a fair playing field knowing that you're single out and not treated badly. I think I know this game is 5 star, but if you have one small problem It's not going to make you think twice about rating five stars twice. Sometimes when I'm on the same leaderboard as 1st or 2st place and I'm not dying in another snake, the game just glitches out of me and kills me for no reason. I don't know if this is a spawning defect or a really small snake in front of me, but either way I can find a way to fix it. Now I don't say this happens often, but I'm saying it happens when you're really big and if you've played at the top of the leaderboard for a while. In addition to that great game!
