Maybe a little longer. Every time I have had a problem, the support team is always pretty quick to get back with me and very helpful in solving whatever the problem is; and they are always really nice on top of that. You can play solo or participate in PVP competitions. Every day there are small missions helping to earn money, gems and other useful items. Playing in infinite mode earns gems with every 1,000 enemies you destroy. Due to these little useful details, you don't\* have to spend money to enjoy the game by any means—but every time I spent money on a boat or package—I didn't come to regret it or felt misled into believing that it was more worth it than it was. Spending \$3 or \$4 each month for a daily sign-up bonus is worth it—even if you don't sign up for a week, you start backing up right where you've been at—don't miss any of your bonuses. This great game with hours of joy, and highly recommended. Hi Captain, thanks for your confirmation. If you have any suggestions to improve your experience in our game, please contact us via fanpage thanks a lot! I lost track of how long I played this game, about 3 years. I love this game. I downloaded a few more games to give them a try and I always end up removing them in a short time and going back to my favorite action game. Although there's a lot of coordination of the eyes of the hands the game is quite simple. Kill everything and avoid being hit by dropped bombs. Not at all the salary for the game I love. However, I like this game so much I feel it is important to support the creators for fun me. Some of the hard ships absolutely cost money, but success is easy to earn on other trips without paying for them. I had 2 of my Locked. I contacted the command post and after viewing the proof of ownership, they immediately unlocked it. It's like getting your girlfriend back. I felt very well supported. Thank you Command Post. Hi Captain, Thank you for your kind comments. Without the player's support and support, we couldn't be doing our game the way it is today. We will try to improve the game to match all players love & expectation. If you have any suggestion or question, you can contact us via the game's fan page : we will support you as soon as possible. Thanks again, and good luck, Captain. While trying to sync my progress from the iPad version to the iPhone version, I lost almost my ships, including mini ships for some unknown reason, because it retained my VIP rank, progress campaign, and PVP history. I lost the boats you only get from playing pvp (wakanda), those boats & mini boats unlocked by watching videos, and the boats & mini boats I bought for money, which is the biggest thing as I spent real money to get these boats. Fortunately, despite their records incorrectly saying that the account was relatively new (they were skeptical as I had some ships requiring playing time or pvp experience due to my estimated account creation date) the support techniques I spoke to managed to recover/unlock all my main ships (not any of my mini ships or upgrades to my ships unfortunately). Then when I opened the app on another device (iPad), it synced this version on both devices (iPhone & iPad) and deleted everything they managed to restore, which basically returned me to Square 1. I apologized for washing their time after I said it was erased again... then they replied that they hoped I enjoyed the game more to move on. Money and time to the canal apparently seem like those things are lost forever. I'm never going to play this game again. hi captain, we are really sorry, please contact and share with us via fanpage and let me see your acc again, thanks a lot and really sorry Monthly subscription (1 month) Developer, ROCKET GO GLOBAL PTE.
