I dedicated this jump to my mother, she made more than Vairák 200 jumps at her youth! This one is:) I don't have enough words to fully describe my feelings and what I've experienced while being freefalling, noting in the past I've been a professional freestyle skier and jumping from a trampoline is like a piece of cake for me, but skydiving is incomparable in the strength of the experienced feeling. With great humour, care and professionalism, he made that day and my first skydiving experience memorable. I jumped with Kevin and I couldn't make it more comfortable and relaxed. He was lovely and laughed and talked all the way. It was a great experience and I would recommend the Miami Skydiving Center to everyone and everyone. Two things can be improved (so why not 5*), we waited very long after check-in at 1.45pm (not jumping until 5pm) and I think that can be avoided if the company wants. We were told that we would have to wait 1.5 hours when we arrived, so I was a little frustrated after 2.5 hours. It seems very sensible to hindsight, but coming from the UK, where we don't get as many IDs as in the US, we don't even think about it. So we ended up on a round trip to get an ID, which was a bit annoying and kind of messed up our plan for the day. Otherwise, it's a thoroughly enjoyable experience.
