Thank you for playing Strawberry Shortcake Berry Fest Party! I love it all! Evelynizing in it is so cool! slashes, hairstyles, costumes, music, cakes and everything is amazing. Hey, I have a good idea for an update! So here it is! O.K. Get ready for this. First, can you add sweet, sour, plum pudding? You need to figure out what Sour voted for on her phone. You play with up to four C.P.U.S. If you vote for what she likes, you get points. The player with the most points wins! There are easy, medium and hard levels. Finally, plum activity is dance. Tap a note before you go through the melody line. You can get combos! At the end of the dance, the many points you get will be as XP as you get. Secondly, I want you guys to make it 3D. Third, I want you to add a pet. And that's all! Thanks! First of all, I think the game should have at least 2 or 3 characters so that the game can have something like a bounce house. Also, maybe add more characters. People don't really have fun when most items are locked. I also think you need to add plum pudding and huckleberry pie to the game. You can add houses for all the characters and people playing the game can decorate them as they wish. Next, I think you should have a different area and maybe a town called Berry Village. You must also have cruz and the sea. And maybe add a berry guy to the village. Thank you for your support@budgestudios feedback! Love to love this game! it's really cool and fun, but there are two issues I like to have requests for, but it's really annoying every second. And the second problem is like asking instead of inging strawberry friends why you guys did to unlock the fairest wheel and unlock them andI was really looking forward to playing with blueberry lemon orange and cherry jam, so the fire goes well. So, if you could see if you can unlock other characters in your next update that would be great. Thanks. ©© thank you for your feedback.
