There is no time to think, because the key to success in this game is an accurate and quick touch on the screen. As in the super release of the Turtle clicker, you need to click to cast the character. In our case, you're going to be a shitty guy who keeps getting puked by a bully. The more accurate you click, the higher the results and, consequently, the performance of the game. And so, to succeed, you must throw the boy high, and when he is almost in your hands, you need to click again. At first glance, it seems that you can not think of a simpler task, but gradually the inflated man get tired, and the release can be a failure. When you save the required amount, you can improve some of its features or even open a new playable character, which will be much healthier. Despite the static character, the app hook with vivid images, funny takeoffs of heroes and inside the game store. There are also a lot of locations and quite convenient control, which allows the gameplay to be dominated even by the younger players. Download the hacked version of Buddy Toss Hack on Android and get a good bonus. Mod a lot of money will open for you infinite resources to upgrade the acquisition of new heroes and chips.
