Driving simulation games on the phone is a series of games that many people love, especially for those who want to learn about cars. Real Driving Sim will be a game that can help you learn more about the world of cars. For how to drive and details about the details in the car, maybe this section won't help you delve deeper into the problems in the car. But it helps you understand more about the machine. First, basically, you can log in with your VK, Facebook, YouTube accounts. Or you can click the Play button. Next, you'll get basic instructions such as opening the car door and how to drive. When approaching the vehicle, if you don't know where to touch to act, there will be icons in positions for you to click on it. When you sit in front of the wheel, you'll see the controls and options pop up. Number 1: The accelerator pedal pushing the car will move forward. Right above this icon will be the exit symbol (pedestrian). Number 2: Reverse pedal used for reverse and can be used for bakingNumber 3: The brake lever used to slow down the vehicle. Number 4: Turn from left to right, traffic light, left turn signal, emergency light, right turn signal, hornNumber 5: Turn left, rightAlso, in the upper right corner, there is a speedometer gas level, car door openers, photos and video recording icons. Missions will appear with certain information that you must customize the vehicle, repaint the color, and buy a garage and to the garage. If you've been playing for a while, you'll get notified that you've taken part in the direction, lead or not. If you've never played this game before, join this tutorial. He will guide you to every gesture in the game. If you have enough money, you can repaint the car, wheel, and adjust the spring level in the workshop. In the game, you can make quests to make money. Click on the map icon in the upper left corner. The symbolism on the map will correspond to the locations where the task is performed, and places where you need to go, such as a gas station, garage, car dealership, workshop, apartment building. There are many types of tasks, such as current quest, police mission, taxi driver, mafia mission. When performing a mission, there will be some special characters that only go to the vehicle for this mission. For example, underneath the image you can see priority light for police cars. All tasks in Real Driving Sim will be performed only by car control. Mission requirements may vary, but this will only be done behind the wheel of the car. At Real Driving Sim, you'll race against time, run from police chasing, or check out your reflexes. The game offers a glorious experience for those fans of racing simulator games thanks to the best realistic physics engine reproducing realistic situations on the track. The game offers many challenges that require players to complete and prove their driving ability. Real Driving Sim also attracts players thanks to flexible camera angles that show the modern and luxurious interior of the car, including rearview mirrors and wipers.
