It's always something new and different. However, additional bonus games with Bo playgrounds cost too many stars to upgrade. I play every day and won't be able to upgrade. Badoon's bonus game used to be tough but achievable I no longer feel that achievable, it has become as hard as Dojo's bonus games and too hard to solve. I don't bother anymore. Also, I know extra and nice but I like that from time to time I was able to watch the videos for an extra 10 balls. This with the level I have stuck, 3 doesn't help 5 at least will be most helpful. Also, it would be better to add more ability to get bonus stuff like rainbow balls and dragon balls. The game is supposed to be challenging but sometimes I just cant get even a level without help. I only bought extra after a holiday if I got the card as a gift. Overall it was a suggestion for improvement for so long users like myself didn't lose interest like I started. Still think it's a great game though. ... I have never checked the app or any product for that matter. However, I am very disappointed that I felt like I needed to share my experiences. Firstly, I love this game, and I play as an escape and for fun. But, if you play to escape or for pleasure, you obviously want to have a positive experience. You don't want to be disappointed with the bug and receive no response from the support service in response to three inquiries within two weeks. While there are plenty of bugs with this program that drive me crazy, I'm just going to comment on one. They offer a variety of challenges where you can earn rewards. I played panda races on three different occasions, and I believe I ended up in third position, first, and first (it's hard to know because if you don't get rewarded, you never know where you've ended up, even though I played with in half an hour of closing challenges, so I had a pretty good idea). After the first challenge, no rewards are offered. I complained. I didn't receive a response. After the second challenge, no rewards are offered. I complained. I didn't receive a response. During the third challenge, I complained again in the middle through. No answers. The third challenge ended, no reward and no response. And I checked my junk mail to make sure that the message wasn't put wrong. The game bubble is a dozen dim... I'll have to check them out. I love this game, fun without being a buzz killing. Twice I have bought coins in the app just to have them lost. I used to buy Money Tree in an app and it too no longer worked after one day, less than 24 hours. The first time the apple quickly credited my account. This time I have reached out to app support to request a refund as this seems a constant systematic error. I want my money to be credited! Now I don't make an in-app purchase anymore app charges me for purchases that I haven't made! I have to apples that have returned money, & developers, who did nothing. Be careful in app purchases, I can only believe developers are dishonest because they are not trying to resolve the issue. I'll bet this review sparked another unauthorized purchase as the first one to do. After this review was posted, app support contacted me again, this time asking to discuss things. I refuse. Their first response said everything I needed to know. Again, I recommend caution in the application because there are major disruptions and you may be tricked out of your purchase. You'll need to contact apple customer service for a refund: apples are much more helpful than app support. So I recommend developers work to fix issues & improve customer support services to ensure customers. Hello, we're sorry you're still having trouble with the purchase of the game. Can you contact us so that we can resolve this issue? **From the game you go to the Settings Menu and select Support Button.
