CRACKED – FREE DOWNLOAD – TORRENT Game Overview Dreamsite Games Dreamsite Games 20 Oct, 2015 Management, Simulation, Strategy, Casual, Point & Click Empire TV Tycoon is a game where you manage a TV channel and fight for a decision-making audience that will project your channel to fame and fortune. You will decide on the content of your channel, choose advertisers, hire workers, make your own productions, hire actors and engage in many more activities! It is inspired by games such as Mad TV, Mud TV and other film management games, with a modern approach on how to produce custom content such as movies or TV shows. Empire TV is a big corporation that has serious losses, and can't afford to maintain three channels, but only one, any more. You were hired to run one of the channels to achieve fame and be the one who remains. Key Feture features: Manage your channel and determine the best content for your current audience. Also, increase your fame and win the war between the three Empire TV channels. Each audience group has its likes and non-liking. Make them happy and your fame will increase; make them sad and your channel will sink into tv depths. Buy and sell movies or TV shows that best suit your audience. You can also choose your favorite movies from about 1000 movies. Do not be tempted to use illegal content. While pirated films are cheaper, the risk is great and the police are always watching. If you can help advertisers reach your audience, you'll win some money. But be careful: Sometimes their requirements and deadlines are difficult to meet. Hire workers to help you perform different tasks, each with its own level and skill.
