Privacy Policy: Usage: December 21, 2020 Version 3.5.0-Christmas Offer-New Presets Performance and Stability The Impromantselvi Application Rating Us! Have questions? Contact us through the support section. I have to say, I am new to photography and presets so it takes me a while to find out how to use it. I read all the reviews on this app, and I think many people don't know how to use it. There are filters that are free, and the majority of them have to pay for you. But you don't have to pay anything to use the free ones and they are really great! Because I'm just starting out I'll wait a while before buying the full application, but my pictures have done great using free ones. It tells you if you're about to buy one, and it says what filters are free. Great application! Well then most applications you'll have to pay a ton of money just to get a preset, which nobody wants to do. This app allows you to pay for bonus presets, or stay with 20+ people, if you watch 30 other videos they get you for free. I absolutely love the fact that you can watch a video and access a preset, please always keep this feature! Everyone downloads it, it is extremely easy to use and presettings are very perfect! Your Instagram will be aesthetic and awesome. Hi! For our five stars rating ♥ team wants great pictures for you. If you have any About the application, we fell free to contact 'More ' &gt;' contactus' and we tried our best to help ☺ take me a few minutes to work how to do that but once I thought it, I've been laved!!! Actually you're very easy to use after reading the instructions! You will have to pay for the majority of them but they are all bundles! So I got all 250 presats for \$9 which is a really great deal! Present love! Super easy-to-edit now! I just got into photography and bought a \$40 software but honestly I'll probably just edit it on my phone now! Hi! Thank you for your positive feedback! We are happy that you are satisfied with this request!
