First aid beauty reviews youtube

One of the first lessons you teach at journalism school: If your mother says she loves you, check it out. Actually, that's not something I've ever had an issue with: I'm very skeptical, thank you very much. So when tasked with testing every product in the beauty line of extensive first aid, I knew there would be some winners, some losers, and a lot of unforgettably false - this natural order of things, right? I was so wrong . Because just came up with about every cleaner, moisturiser, mask, eye cream, and serum I tried, I just came up with the same impossible conclusion: it's really good. (Also why isn't this costing more?) In most cases the formulas are gentle, but they feel like they're doing something. Retinols and Alpha Hydroxy acid resurfacers my skin doesn't feel prickly or look red - and almost everything in the line loops below \$50.Overall, my moon and half test nearly 35 products proved overwhelmingly positive. Ahead, see which products saved my skin after Vegas, which was added to my gym bag, and the few that didn't make the cut. Then, click ahead to the latest slide where we feature more unfiltered reviews from readers like you. At Refinery29, we're here to help you navigate this onerous world of issues. All of our market picks are independently selected and curated by the editorial team. If you buy something we link on our site, Refinery29 may earn commissions.
