Meow ~ New Daily Mission: Today no more intersea ads. This game is amazing! And very funny, I love playing every week or when I feel in but I have some problems.. 1: only 5 energy.. it's a little sad how I can play only 5 levels to the next 100 100 or so, unless I watch 5 total drama episodes, which is a fun way to wait until I have enough energy! 2: loss of sound.. sometimes when I want to hear that majestic music, all I hear is silence, no music, no sounds, it's a real let down, especially since calm music won't be able to calm my nerves.. 3: Gold chests, you can open them only by watching the ad for the key or using the key already for some reason, it's a little sad because you can hope to get a perfect result at some level, but you'll have to watch 20 to 30 seconds of key ads because you ran out of keys.. that's all the problems I have, I still rate it 5 stars because it's very amazing, I don't mind the problems a lot, but when I do, I'm very upset, anyway, if you see it, I'll be very happy! Although it can't, I don't really know.. but I love your game! I hope you can add more levels or so, thank you, you'll find out! I don't like most iOS games. I like simple ones that are not too addictive and that I can play in small series. I've been looking for a simple Mario-style game for a long time. This one is great! Easy to learn, and small secrets are achievable even for iOS games under-achievers like me. Gameplay and feel it get 5 stars in my book. But after playing for a week or two, I have to dock the star: When I reached the last level, nothing happened. It feels very incomplete. Even a little message in the style of Thanks for the game! We work at higher levels! would be a nice touch. I really hope to release an update with more levels... and ending! UPDATE: We will, the original story still has no ending (perhaps they do it like TV series that never quite in the hope that you'll watch, or in this case the game ...), but it's nice to see the developer adding levels and making few improvements (like giving the icon a track record to find all the secrets and chests at a level that has made going back through fun levels to find secrets you might miss!). It's just a fun game. I give my 5 star. ☺ Thank you for playing Super Phantom Cat 2 and your feedback. We love that you love the initial gameplay, mechanics and history. However, we will continue to add more interesting chapters, levels, features and characters in upcoming updates. This game was really fun and I've already beat the game and for Christmas stuff after hello kitty, i don't unlock all the characters that is a shame, but once i've finished everything i'll be craving more, i'll be doing the first one so call me after making the 3rd! Also on the third, if you can do it you can make your own level? It will occupy us until it comes out next, what I mean by the next is I want it to be a series but add a custom level stuff on all games what I do tell you how many episodes there are, maybe.... ?! Yes, 7. Why? Since it will cause people XD, take as much time as you need, also, if you want to add 8, but you will not like others, including one, you can chase people to custom levels others can play, make a meeting place to play roles, chat, and feed, But if not, PLEEEAAAAAASE give me a small little shoutout adding a cat waffle, why waffle the cat? Because waffles are the best things ever, besides potatoes. To get it OC 5 STARS! · 3, But It's good if you don't do it, all we need is more phantom cat games, well, Bail The developer, Veewo Games, has not provided Apple with details of its privacy and data processing practices. Download Super Phantom Cat 2 and jump back into the magical adventure! Thanks to the endearing art and the game Mario-esque, this platformer did not have us muttering in a short time. Each cleverly developed level has dozens of hidden pickups and cute-but-deadly enemies to dodge or pounce on. Robots throw you into areas high up, fireball power-ups let you shoot obstacles, and funny messages fill Phantom World with bizarre appeals. I'm not a heavy mobile player. I was looking for something simple and fun and a bit nostalgic, a bit like the original Mario games. It's just a thing! The levels are not too long, so I can play it for small breaks of the game. And they are a challenge, not being impossible. I like that I can find all the secrets without having to play at level 30 times or having to rely on tutorials from others. Great game! I highly recommend it. It's worth a buck or two. And if you like it, you'll also like the sequel game! I hope the developers keep this series going! This game is really fun and well designed. Each level is very unique and has a high replay value due to its secrets and puzzles. The aesthetics of the game is also super cute and colorful, which fits well with the type of game it is.
